HANGMAN'S DAY.

Negro Executed in Delaware For Child Murder.

Wilmington, Del., Feb. 19.—Thomas Willis, colored, was hanged at Newcastle at 12:35 o'clock today for the murder of his infant child on May 4 last. The body was never found until May 22 having been taken up by dogs from a shallow grave on a farm. Detectives suspected and finally secured a confession from Willis, who said he had killed the infant because it had become a burden to him.

CHICAGO PRINTER HANGED.—Chicago, Feb. 19.—Daniel McCarthy, a printing house employee, was hanged today for the murder of his wife. The murder was committed in a fit of jealousy. The man had strangled to death his wife after refusing her religious consolation and was calm to the last.

HELD FOR MURDER.

Result of a Long Wisconsin Examination.

Madison, Wis., Feb. 19.—George Ayres was this morning, after a preliminary examination lasting nine days, held for the murder of Gust Peterson, a horse jockey who was killed on the night of Oct. 3. The body was found hanging in a rooming house in a tree, believed to have been put there for water pipes. He was arrested on suspicion and held two days without a warrant. After being released on a writ of habeas corpus, Ayres brought suit against the sheriff and the police for false imprisonment, in which suit he was defeated. He was immediately rearrested and will now be tried.

MCDOUGAL DENIES IT.

Has Not Been Offered a Cabinet Position.

New York, Feb. 19.—Col. John J. Cudahy said to the writer that he had not received from President McKinley any intimation that he had been or would be tendered a position in the cabinet. His recent visit to Maj. McElroy and Mr. Hanna was a friendly one, and the two men had been friends in early youth and ever since that period. In reply to a question as to the probable basis for the cabinet, Col. Cudahy said he had decided upon him, he said it was customary for presidents to invite prospective members of the cabinet to call on them, but he had received no such invitation.

OFFICES IN WASHINGTON.—Washington, Feb. 19.—The Republican association of Washington has opened handsome headquarters at 1227 G street, where they will welcome all their friends in the city during the inauguration of the Cincinnati Young Men's Blaine club has taken quarters next door.

JUDGE SEYMOUR DEAD.—New York, Feb. 19.—Augustus S. Seymour, of New Bedford, Mass., C. Justice of the United States district court for the Eastern district of North Carolina, died in this city today of cancer of the stomach.

BARNATO'S DAUGHTER.

Cincinnati Woman Who Claims That Distinction.

Cleveland, Feb. 19.—Mrs. J. M. Blackman, wife of a cigar maker of this city, says she is a daughter of Barney Barnato, the millionaire. She says she is one of five children born to Barney by a woman whom he married seven years ago. Barney, she says, is 47 years old, and was born in India, where he married his mother, Anna, widow of Major J. M. Blackman, the same name as his father.

The details were given up yesterday when the author of the article was asked if he had any information concerning the family of the millionaire. The reporter was told that Mrs. Blackman had been in absolute confinement between the emperor and his sister, arising from old-time quarrels, and his family, including his wife and two children, to the royal family of Greece.

In diplomatic circles it is surmised that the emperor's dignity was hurt in the remonstrances of the powers in general and of Germany in particular.

Mr. Blackman, however, is reported to have married his wife again, and Mr. Schmidt argued forcibly against the amendment.

The details was one generally participated in and the amendment was adopted. By a vote of 32 to 37 the bill was finally killed.

The bill, after one year longer, or three years, for redemption of property was recommended to pass. Several other bills were considered but no action taken. The committee reported that the bill did not pass back on general orders and will be considered again later.

IN THE SENATE.

St. Paul, Feb. 19.—(Special to The Herald)—In the senate following the adjournment of the session, Stevens, an act relating to the soldiers' home, allowing wives and children of the soldiers to live there. Soldiers' home, two bills amended, law relating to civil actions. Judiciary, Stevens, three bills amending law relating to mortgage foreclosures.

Greeks, amending law regulating use of public nets in international waters.

Creditkote, to organize medical corps in National Guard, Military affairs, Stevens, amending act registering pharmacists, Judiciary.

Senator Spencer called up his postage resolution and it was sent to the legislative committee.

The bill for election reform commissioners was taken up in committee and Senator Miller presented amendments, so that all would not begin their term at the same time. The bill, with amendments, was then referred to the broad committee.

The committee substituted for the bill to provide for semi-annual elections. The bill was discussed at considerable length and then unanimously recommended to pass.

The senate then adjourned for the day.

BARREN

No Petitions or Committee Reports Heard in the House at St. Paul.

Mr. Vail Again in His Seat After a Wrestle With Grippe.

Senator Spencer Still After His Postage Allowance—A Quiet Day.

NO SETTLEMENT YET.

Dispute Over Unapproved Chipewa Pine Land Sales.

Washington, Feb. 19.—(Special to The Herald)—Representative Vail, who has been kept at home by an attack of influenza, was in his seat again today. Judge C. C. Darrow was on the floor ten years old. Committee on Expenditures, Rep. George Darrow, was also in the chamber. The coroner's jury met at Winona at 10 o'clock this morning, and the inquest is now in progress.

Committee on Agriculture, to amend bills relating to compensation of assessors for farm statistics. Committee of the whole.

West to reduce the bounty for capture of horse thieves. General legislation.

Amendment to amend general laws, 1874, relating to roads. Towns and counties.

The elections committee presented a resolution for H. R. 437, relating to the admission of Oregon. All disapproving of other minor reports the following bills on the calendar were passed.

H. R. 437, Lovett, relating to the Chipewa pine land sales, allowing disposition of certain securities in Chicago. H. R. 441 and 442, to release Thomas F. Martin and Henry Johnson for services in the Civil War.

The house then went into committee of the whole. Mr. Vail presiding, and took up general orders.

Mr. Schmitz's bill to provide dependents of the late treasurer was first taken up, the author explaining it and the amendments made by the committee. Mr. Jacobson, of Minnesota, moved to hold the treasurer personally responsible, notwithstanding the law giving someone else the right to designate another, but Mr. Schmidt argued forcibly against the amendment.

The details was one generally participated in and the amendment was adopted. By a vote of 32 to 37 the bill was finally killed.

The bill, after one year longer, or three years, for redemption of property was recommended to pass. Several other bills were considered but no action taken. The committee reported that the bill did not pass back on general orders and will be considered again later.

LEXON'S INQUIRY.

Washington, Feb. 19.—(Copyright by the Associated Press.)—The newspaper of this city reflect the bitter resentment felt at Emperor William at the rejection by the people of some of his majesty's personal proposal to wed Greece by a joint blockade of the Dardanelles, the port of Athens, of the Aegean, and the Hellespont. The emperor's proposal caused a great stir in diplomatic circles, as it was generally assumed that he would not marry a woman of such a lowly birth as Sophie, the crown princess of Greece.

The details was one generally participated in and the amendment was adopted. By a vote of 32 to 37 the bill was finally killed.

The bill, after one year longer, or three years, for redemption of property was recommended to pass. Several other bills were considered but no action taken. The committee reported that the bill did not pass back on general orders and will be considered again later.

GRONSETH & OLSEN

ITS SOCIAL SIDE.

One Phase of the Salvation Army Explained.

As Maj. Parker, of Boston, who was to have given a lecture on the work of the Salvation Army last night, was detained by the illness of a relative, his place was filled by his assistant, Ensign Davis. So excellent was his address, and so interesting the illustrations that one was disappointed at the change. The lecture dealt with the social side of the army. The speaker discussed the leaders of the army and their aims for humanity. He graphically described the life of the "other half," illustrating his remarks by pictures of an abominable army among which the army works. He gave a picture of the London training school, from which over 500 missionaries are sent every year to all parts of the world. His introductory speech of the slums was a representation of Christ's interview with the Magdalene. Then came pictures of the slums of London, New York, Boston, and Chicago, accompanied by a description of the rescue work. The speaker said that 80 per cent of the fallen women now in the army are converts, and many were educated.

The women of the army go to concert halls and other places to give vespers and services, and there is no time for the mission of rescue. Another interesting branch of the work was that in behalf of friendless and homeless men. These have been well maintained. The army waits for men as they are discharged from prison, and those with no place to go are cared for. Many are rescued in this way.

Kent Law Circle.

The Kent Law circle met last evening and the phases of agency were discussed. Those participating and their subjects were: R. P. Shuman, "Warren Billings," "Ratification and Quiescence"; T. C. Thompson, "W. S. Tiford, "Forces in Agency"; H. W. Pierce, "Married Women in Agency"; W. S. Birch, "Special Agents Considering in Particular Authors, Factories, and Brokers and Insurance Agents"; and E. C. Thompson, "The Liabilities of Agents, Principals and Their Parties."

The trial will be held on the 21st of the meeting next Thursday evening. Joe Van Roseneren will be Judge. The case to be tried will involve the question of whether F. E. Thompson, Leo Ball and H. W. Pierce will argue the plaintiff's side, and R. P. Shuman, W. S. Tiford and H. W. Billson the defendant's.

Catholic Club Social.

About seventy-five guests were very delightfully entertained at the Catholic club rooms, 208 West Fourth street, the greater part giving evidence of the fun and it was thoroughly appreciated and enjoyed. Pool billiard and card tables and bowling alley were utilized fully, and an informal musical program was enjoyed by all during the evening. The club members constituted the reception committee, and they carried out the duties of the office satisfactorily from 8 to 10:30.

Smoke the "Tom Dinham" cigar, sold by all the leading dealers.

BANQUET

Master Plumbers' Association's Spread at the St. Louis Last Evening.

President Kelly Tells Why the Plumber Benefits Public Health.

Remarks By Mayor Truesen, T. W. Hugo and Several Others.

The business of the third annual convention of their organization was the meeting of the Minnesota Master Plumbers' association gathered around the festive table and exchanged another strand in the bonds of friendship that unite them. The banquet, which was given by the local association in honor of the visiting delegates, was at the St. Louis hotel. About 20 people sat down, including the mayor, members of the council, city officials and other guests from walks other than the plumbing business.

It was about 9 o'clock when the attack on the good things was begun and it was just past midnight when, after the festive meal, the assembly broke up. The guests were seated at three tables ranging from Kelly, of the state and Presidential Sullivan, of the local associations, sitting in the center of the room, to the master, consisting of three platters with green peas, roast turkey, stuffed cabbage, mashed potato and potato parsnip; chicken croquettes with green peas; roast turkey, stuffed cabbage, mashed potato and potato parsnip; and coffee and cigars. While the viands were being served, the orchestra, under the direction of President Sullivan, assumed the reins as toastmaster. He presided with dignity and with a sense that allowed him to dispense with the formality with which he had failed to contribute to the enjoyment of the occasion with whom, when he was present, he could be expected to do so.

When the coffee and cigars had been reached, President Sullivan assumed the reins as toastmaster. He presided with dignity and with a sense that allowed him to dispense with the formality with which he had failed to contribute to the enjoyment of the occasion with whom, when he was present, he could be expected to do so.

PROF. JOHN B. DE MOTTE.

St Louis, Feb. 13.—Karl Papenheimer, a German who was naturalized in October, has renounced his citizenship. After enjoying his rights for two months—thus long enough to vote at the November election—he returned to Germany. The clerk of the court of criminal correction in St. Louis has received a letter from Assistant Attorney General of State Euclid, enclosing a letter from the American consul at Stuttgart. The note says that Karl Papenheimer appeared before him Jan. 26, and after exhibiting his naturalization papers, announced his intention of again becoming a subject of the emperor of Germany. It is stated that since 1866 no naturalized person has renounced his citizenship.

PAPENHEIMER RECENTS.

He is Again a Subject of Emperor William.

St. Louis, Feb. 13.—Karl Papenheimer, a German who was naturalized in October, has renounced his citizenship. After enjoying his rights for two months—thus long enough to vote at the November election—he returned to Germany. The clerk of the court of criminal correction in St. Louis has received a letter from Assistant Attorney General of State Euclid, enclosing a letter from the American consul at Stuttgart. The note says that Karl Papenheimer appeared before him Jan. 26, and after exhibiting his naturalization papers, announced his intention of again becoming a subject of the emperor of Germany. It is stated that since 1866 no naturalized person has renounced his citizenship.

PAUL RESOLUTIONS.

St. Paul, Feb. 13.—Spurred by The Herald—Senator Nelson and Representative Fletcher today presented in the Senate their resolutions of the St. Paul chamber of commerce urging an appropriation for the dredging of deep waterway canal and protesting against the removal of the office of steamship inspector of steam vessels.

FATALLY BURNED.

Cleveland Horror Which Will Cost Five Lives.

Committee's Work Blocked By the Absentees.

Cleveland, Feb. 19.—The advocates of the international monetary conference bill which is in the hands of the house committee on coinage were disappointed by the result of the meeting of the committee called today. There was no quorum of the committee present, nor was there anyone on hand to address the committee. Chairman C. W. Stone and a handful of others waiting for an adjournment of the hour of meeting finally adjourned until tomorrow. Mr. Quigley of New York, had notified the committee that he would endeavor to bring before it today several prominent men from New York who desired to give their views, but Mr. Quigley and the New Yorkers failed to appear.

CHARGED WITH MURDER.

Iowa City, Feb. 19.—Two men have been arrested, charged with the murder of Joe Mack, a wealthy stockman, in this city, whose body was found floating in the waters of the Wapsipinicon River. Tom William Blossen and his father, both of Vinton. Officers are searching for a third man, Samuel Bouston. These three were inmates of the same cell which was to have been tried at Vinton. Mack was an important witness against them. It is reported that one of the men was a member of the church. Maj. McKinley attended, being gathered by curious hunters, and several shipments have already been made.

DESPOLIED BY RELIC HUNTERS.

Newark, Feb. 19.—The relic hunters are despoiling the property in Upland, where President-elect McKinley spent many years of his youth. Pieces of trees from the McKinley home, and silver salvaged from the church Maj. McKinley attended, are being gathered by curious hunters, and several shipments have already been made.

NATIONAL STEEL CO.

Newark, Feb. 19.—The steel manufacturers are despoiling the property in Upland, where President-elect McKinley spent many years of his youth. Pieces of trees from the McKinley home, and silver salvaged from the church Maj. McKinley attended, are being gathered by curious hunters, and several shipments have already been made.

HAS BEEN A TROOP SHIP.

Newark, Feb. 19.—The White Star freight steamer Cuba, which arrived yesterday from Liverpool, has been acting as a transport for the Spanish government since she was last at this port. She made twenty trips from Barcelona to Havana, carrying 2000 soldiers each.

KNOCKS FUSION OUT.

There were exciting scenes in the senate over the consideration of the chapter of the code governing elections. As amended the last fusion bill, body and soul, may appear on the official ballot more than once. This caused an uproar. After several hours' discussion the bill was finally passed by a vote of 31 to 17.

KILLED BY THE CATARRH.

Fall City, Feb. 19.—Judge E. A. Thomas, a prominent lawyer of this city, was run over and killed last night while walking from a southbound train on which he was a passenger. In crossing a parallel track he was struck by a north-bound freight.

WHY IS IT.

Catarrh is a blood disease, as some claim, a physician frequently advises change of air and climate to the suffering? Catarrh is a climatic affection, and nothing but a local remedy or a change of climate will cure it. Ely's Creek Park is so effective, it keeps away with the necessity of leaving home and friends, causing instant relief and is a real cure of catarrh.

SHORTAGE

Republican Ex-State Treasurer of Nebraska Short Half a Million.

Victim of a Too Lenient Policy in Helping His Friends.

The Former State Auditor Is Short Nearly Thirty Thousand Dollars

Lincoln, Neb., Feb. 19.—A statement of the condition of the state treasury of the state shows that ex-State Treasurer J. S. Bartley, Republican, has a deficit staring him in the face of over \$600,000. Coupled with this is a little item of \$27,000, which ex-State Auditor Eugene Y. Moore, also Republican, needs to account for in order to balance his books.

Mr. Bartley is unquestionably the victim of a too lenient policy in assisting his friends in a financial way. When the panic of 1893 struck Nebraska, Mr. Bartley deposited large sums of money in various state banks to help them through the crisis. Several of those banks failed, and the friends were so closely pressed that it was impossible to discharge the obligations. Bartley says that in the course of time every cent was paid.

The shooting in April Moore's accounts has not so far been explained. Action in regard to the state treasury suspense has been delayed ten days by a vote to adjourn. During this time special committees will inquire into the alleged shortage.

FIGHTING IN CRETE.

Rumored Success of the Greeks in an Encounter.

Canea, Island of Crete, Feb. 19.—(Copyright 1897 by the Associated Press)—The garrison of Fort Youko, comprising 300 soldiers and 100 Cretan Mussulmen, was defeated by the Greek artillery, retired to Alkiakou, where their force was again besieged. The government has armed a number of Mussulmen troops who have started to the rescue of their co-religionists.

BRITISH SHIPS ON GUARD.

New York, Feb. 19.—A British naval fleet from Canada is special to the British ships have prevented the landing of Greek troops from Alphios.

A Turkish steamer has arrived bringing to the Greek artillery, retired to Alkiakou, where their force was again besieged. The government has armed a number of Mussulmen troops who have started to the rescue of their co-religionists.

THE FIGHTING IN CRETE.

of them.

THE DULUTH EVENING HERALD: FRIDAY, FEBRUARY 19, 1897.

WEST END

Manufacturers' Bank Receiver Will Pay a Dividend on March 1.

He Expects to Eventually Pay Fifty Cents on the Dollar.

Participants in Thursday's Races Are Dissatisfied With the Outcome.

C. E. Peasee, receiver of the Manufacturers' bank will, on March 1, send notices to all depositors informing them that they will be paid a dividend of 15 per cent on balances to their credit in the bank at the time of the suspension. Mr. Peasee says that collections are very slow, and that the amounts that depositors will eventually realize from the assets of the bank is not known with much doubt, although he is quite confident that they will be paid at least 50 per cent of all that is due them. Much will depend upon the future values of real estate and the ability of certain large corporations whose paper constitutes a large percentage of the assets of the bank, to meet their obligations. Other amounts may be demanded as rapidly as the collections will permit.

ARE NOT SATISFIED. Those who participated in the amateur racing event at Gish & Nixon's rink Thursday are not well pleased with the decision of the judges in awarding the championship trophy to J. T. Conroy. They allege that the winner fouled C. A. Running, and that it was due to this fact that he was unable to win the first race in his final. The Herald is in receipt of a communication, signed by four of the contestants, in which, while the meaning of the writer is not wholly obscure on many points, it is promised that the race will be skated again, and the question as to who the real champion is left to the managers of the rink have not yet been considered, however.

A SKATING CARNIVAL. The success of the skating masquerade and grand ball given by the Avon Presbyterian church at the Union rink in Duluth last night has suggested the idea to the ladies of the Westminster Presbyterian church that it would be a good scheme to have it reproduced at Gish & Nixon's covered rink in West Duluth, Thursday or Friday night of next week. The negotiations with the managers of the rink have not yet been completed, however.

COMPELLED TO SHUT DOWN. Joseph Burns, who has been operating a tea camp in Carlton county, has been compelled to temporarily abandon his contract because of the deep snow. The weather, however, under conditions will be such as to permit him to complete his work before spring.

NOTICE TO HERALD READERS. Persons having communications, announcements or news items of interest to West End readers of The Evening Herald are please to them at the office of L. A. Barnes, Room 210, Manufacturers building, and they will be given prompt attention.

J. T. KARSTEN is in Minneapolis.

M. F. Brown will return to Montana in a few days, where he will resume his former position with the Great Northern.

The Baptist church social last evening was well attended and yielded the church a neat revenue. It was a very enjoyable affair and was liberally patronized.

Miss Rose Gredin returned today from Floodwood.

Robert H. Conroy, who for the past three years has been in the employ of Kastner & Neuman, in the Great Eastern Clothing store, has resigned his position and will leave for Chicago in a short time, where a pleasant position awaits him.

The West End club will give a masque ball tonight in Isaacson & Kauppe's hall, preparations having been made for a most enjoyable evening.

Lieut. Arthur Briggs, who is in charge of the West Duluth police force, has returned from his trip to Ontario. His leave of absence expired Thursday, and he is expected home now on every train.

Dr. Ford will speak at Assumption Methodist church tomorrow morning at 10:30, and in the evening he will deliver a lecture on "George Washington." He will conduct the usual services at Proctorcourt at 2:30 p. m.

West Duluth Covered Rink. Music Tuesday night by City band.

HOW'S THIS? We offer One Hundred Dollars Reward for any information leading to the capture of our child, Cataract Cure, cannot be cured by Hall's Cataract Cure. D. J. CHENEY & Co., Prop., Toledo, O. We will pay \$100 reward for any information leading to the capture of our child, Cataract Cure, for the last fifteen years, and believe her perfectly honorable in all business transactions, and amenable to carry out any obligation made by their firm.

WEST TRUAX, Wholesale Druggists.

Toledo, O. W. KINNAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Cataract Cure is taken internally, acting directly upon the skin and mucous surfaces of the system. Price 75 cents per bottle. Sold by all druggists. Postage free.

Hall's Family pills are the best.

Subscribe for the Humane Age.

The Evening paper is always carefully read especially in the home circle, and is therefore the best advertising medium.

Parents, see that your children hear Dr. Motte's illustrated popular lecture, "The Harp of the Senses, or the Secret of Character Building." Promounced by Dr. Alfred B. Conroy, the best lecturer on the American platform. Twenty-five cents for children.

Dr. Motte's illustrated lecture, "The Harp of the Senses," the best lecture ever brought to Duluth.

Blood Pure?

Is it? Then take Ayer's Sarsaparilla and keep it so. Isn't it? Then take Ayer's Sarsaparilla and make it so. One fact is positively established and that is that Ayer's Sarsaparilla will purify the blood more perfectly, more economically and more speedily than any other remedy in the market. There are fifty years of cure behind this statement; a record no other remedy can show. You waste time and money when you take anything to purify the blood except Ayer's Sarsaparilla.

THE PRODUCE MARKET.

Trade improves slightly in the Michigan street market. Great expectations are based on the middle of March. Eggs are up 10 cents, bacon 10 cents, and a little green stuff is in the way corners.

DULUTH QUOTATIONS.

Note—Prices given below are for goods which change hands in lots on the market, buying orders in order to secure best goods for delivery. Cover cost incurred, an advance over jobbing cost charged. The figures are daily.

THE WEATHER.

United States Agricultural Department, Weather Bureau, Duluth. Synopsis of weather conditions for the past four hours ending at 7 a. m. [Central time], Feb. 20.—The storm area which was centered over the Great Lakes yesterday morning of South Dakota is central this morning in Minnesota. It has increased in magnitude and now covers most of the valley and the western part of the upper half of the state. It will affect, as far as general rains or snows fall, the Missouri and Lower Missouri valleys south of La Crosse, Wisconsin; Minnesota; North Dakota; Manitoba; and the north-eastern Montana. Severe gales have been reported.

The temperature has risen 10 to 32 degrees since yesterday morning in the lakes region, the Mississippi, the Missouri and Minnesota, and has fallen 8 to 20 to 30 degrees in eastern Montana. It is 4 to 11 degrees below zero in the day in portions of the Canadian Northwest, and 10 to 15 degrees below zero, upward to 31 at Chicago, 48 at St. Paul, 51 at Kansas City, 54 at Memphis, 51 at St. Louis, 52 at Denver, 53 at Prince Albert, 52 at Medicine Hat, 51 at Calgary, 50 at Fort Macleod, 48 at Swift Current, 46 at Qu'Appelle, 45 at Bismarck, 44 at Port Arthur, 43 at Marquette, 42 at Sainte-Marie, 41 at Huron, 40 at Sioux City, 39 at St. Paul, 38 at Moorhead, 37 at Duluth, 36 at Bismarck, 35 at Laramie, 34 at North Platte, 33 at Omaha, 32 at Denver, 31 at St. Louis, 30 at Memphis, 29 at Dodge City, 28 at Denver. Denotes below zero.

Duluth temperature at 7 a. m. today, 30° maximum yesterday, 28° minimum yesterday. Local forecast for Duluth and vicinity: Snow followed tonight by clearing and a cold northwesterly wind. For Minnesota: Snow continues and will continue to fall with cold wind tonight; Sunday fair with cold wind tonight; Sunday fair and cold; high winds, shifting to north-west.

HAS ENTIRELY COLLAPSED. The New York Sun published the following double-headed editorial this morning:

"Our associates in the conduct of the United Press, the Tribune, the Herald and the Times, having entered upon negotiations for the surrender of the United Press to the Chicago Associated Press, without consultation with the Sun, and without securing our consent, it becomes proper that we should now give public notice to whom it may concern that the Sun has no part in these negotiations, but firmly rejects them, believing them to be conceived in bad faith and conducted in folly."

"Furthermore, the Sun makes known that thirty days from date hereof it will cease to be a member of the United Press. The Sun will also continue to collect the news for itself and to discharge all obligations imposed upon it through the confidence of its contemporaries, now and hereafter."

This means the entire collapse of the United Press, because the desertion of the leading New York papers deprives it of its most valuable Eastern connections and its industrial backbone. The Herald foresees this result several years ago and made its arrangements accordingly. It dismissed the service of the United Press and became the original member at the head of the lakes of the Associated Press, the greatest news-gathering organization in the country. The Herald's move was followed by similar action by the News Tribune and by the Superior papers, and since the collapse of the Commonwealth the United Press has had no direct connection with this section of the country.

The accession of the New York Sun, Tribune, Herald and Times to the Associated Press will have a beneficial effect upon the news service furnished by this organization, and the result will be a continual improvement in the quality and extent of the telegraphic news published by The Herald. Comparatively few newspapers in the West will be affected by the collapse of the United Press, its subscribers having been steadily decreasing during the last few years.

GREECE'S GAME. Although Greece has not formally declared war against Turkey, actual hostilities have taken place between these two countries. Greece having fired on a Turkish transport in Crean waters and having landed armed forces in a country that is acknowledged by all the world to be a Turkish possession, Greece has established a quasi-war,

which enables her to keep diplomatic relations with Turkey uninterrupted and leaves her in a position to accept the suggestion of the great powers in such a way as to enable her both to retire from a position which may become awkward and to gain something in the way of territory.

Sixteen years ago, when Greece threatened to force the fighting, the powers quieted her by compelling Turkey to give up Crete and a strip of Epirus to King George. May Iepus may satisfy Greece it is not remarkable that England may decide to "hold" Crete for the sultan, as she has held Cyprus for the past twenty years.

PROBING THE TRUSTS.

For several weeks the dispatches from New York have been filled with reports of the investigation into the operations of the trusts, conducted by a legislative committee of which Senator Lexow is chairman. The evidence has been highly interesting, and although the witnesses have been evasive and tried to dodge many questions, they have been forced by the persistence of Chairman Lexow to make damaging admissions. The president, the treasurer and the treasurer of the sugar trust were on the stand, and although the story was poor when important facts and figures were requested, enough was brought out to show the perfidious character of the combination with which they are officially connected. The following facts have been established:

First.—The sugar trust was organized to kill off competitors in the trade and did kill them off.

Second.—The consolidation stock was watered enormously beyond the actual capital or value of property—the capital being \$75,000,000, while the actual valuation is not supposed to exceed \$30,000,000.

Third.—The profits of the trust have been enormous, amounting for the three years from 1894-95 to between \$30,000,000 and \$35,000,000, and enabling the payment of dividends from 10 to 15 per cent on the grossly watered stock, besides the accumulation of a vast surplus.

Fourth.—The trust produced 80 per cent of the refined sugar consumed in United States and thereby virtually controls the output and price of the entire consumption, and actually monopolizes the trade east of the Missouri river.

Fifth.—That the sugar barons not only have the power to kill off competition and maintain their monopoly, but also a determination to use their power is shown by their embarking in the sugar business with the obvious purpose of driving a great concern out of the sugar business, in which it has ventured in competition with the trust. If, as Mr. Havemeyer insisted, this move was simply a matter of business and not of retaliation, then the public need not be surprised if the "business" is pushed until the sugar trust swallows up the coffee trade and thus extends its gigantic monopoly to two prime necessities of life.

The rubber trust was also a subject of investigation. On Feb. 12, R. Flint, treasurer of the trust, admitted that the rubber combine was formed in 1902, with a capitalization of \$50,000,000, that the companies absorbed at that time cost the combine \$22,000,000, and that others subsequently absorbed cost \$12,000,000. He admitted that the plants originally acquired were operated to the extent of about one-half of their capacity only, and that other plants were taken in while production was thus restricted. He even admitted that the different companies competed freely before the consolidation was made, and that afterward the competition president were inaugurated. Harrison did not go into the senate chamber; his mission was to argue a case before the supreme court. Morton was in the chamber, and held a regular levee there.

Vice President-elect Hobart has been besieged by begging letters every day since election. One young woman is said to have written to him from New Orleans, requesting \$10,000 with which to complete her medical education, and asked Mr. Hobart to telegraph when the money would arrive. Another woman asked for \$8 for a set of false teeth, saying that her chances of getting a husband would be vastly increased thereby.

Gen. "Jo" Shelly left a most interesting collection of relics of the confederacy. One of his prized possessions was a daguerreotype of three boys—Shelly himself, Frank Blair and B. Gratz Brown. It is recalled that Shelly's mother was both rich and generous, and when she sent her son to school in Philadelphia she sent the other boys, who were poor, along with him.

Reports state that at the White House reception this week "the beam of light shone through the glass in the corridor, broken, dresses torn, broken, demolished, and Mrs. Cleveland herself jostled about. This havoc was wrought because the women all tried to shake hands at once." The social conditions at Washington always are peculiar.

The New York Sun says if you want to see a real trust look at the great European war trust, a concert of so-called Christian powers united for the present in protecting Moslem Turkey against the endeavours of Greece. "The world," said the pious Quaker, "is queer. Everybody is queer, except these and me; and these are queer at times."

When steel rails drop from \$26 to \$18 a ton in less than a week because a corner collapses, says the New York World, it tells the whole story of what inflation means to fair, trade and legitimate business.

The lumbermen are not complaining about a scarcity of snow this winter.

It is proposed to put the Chicago alderman on salaries of \$3000 a year. They now get rich on \$3 for each council meeting, and with the increased

to the cupidity of his client by pledges of big rewards without expense. The solicitors cultivate acquaintanceship with saloon keepers near railway crossings or adjacent to manufacturing plants, and the physicians have access to the hospitals where the injured are taken after accidents occur. Then,

when the victim is gotten into the toils of the conspirators, the thing is easy. By perjured witnesses anything can be done to satisfy the jury frequently ready to flee in fleecing a corporation or manufacturer.

The writer of the Review article gives some curious statistics and surprising facts in relation to the matter. For example, during the first six months of 1890 there were entered in the courts of Cook county, Ill., 346 suits for personal damages, the aggregate amount claimed being \$28,148,860. During the first six months of 1896 the suits amounted in number to 889, and the total damages claimed to \$13,510,000, the difference being attributed to the introduction of the speculative agencies in Texas. According to the court records there were fifteen cases in which seven were carried to the supreme court by the plaintiffs and fifty by the defendants. In twenty-four cases the judgments of the lower courts were affirmed and in thirty-three reversed. In Kansas sixty-two cases were tried, all of which were carried up, and forty-two on motion of the defendants and eleven by the plaintiffs. That is, every case tried was appealed and exactly half were reversed. In New York twenty-seven cases were tried, all of which were carried up, and forty-two on motion of the defendants and eleven by the plaintiffs. That is, every case tried was appealed and exactly half were reversed. In Illinois sixty-two cases were tried, all of which were carried up, and forty-two on motion of the defendants and eleven by the plaintiffs. That is, every case tried was appealed and exactly half were reversed.

The action of the senate yesterday indicates that no vote will be taken on the arbitration treaty until after March 5.

Of course, the Connecticut head-quarters at the Nashville exposition will be built of wood in the shape of a nutmeg.

stipend would no doubt blossom out as millionaires.

The colored poet, Paul Dunbar, who is to give readings from his book in London in the spring, will be more certain of good audiences there than in any other city of the world.

The Chicago Chronicle calls for the tearing down of all the bill boards in that city, because they disfigure the streets and are of no profit to the advertiser.

Jan Macaire's works are being translated into French, but no one has proposed to translate them into English.

The action of the senate yesterday indicates that no vote will be taken on the arbitration treaty until after March 5.

In Duluth's Social Circles

Outdoor pleasures have interested but been completed, a fine light society quite extensively this week. There have been many skating and coasting parties. Snow shoeing has become a favorite pleasure and a great many society people are pursuing that very healthful exercise. Last Tuesday evening as many as forty people were snow shoeing in the vicinity of Duluth. There were a half dozen little parties. Next week there will be a musical event that will interest everyone—the Max Heilrich concert—and the Assembly party will also be given.

Miss Dickinson gave a euchre party last Saturday evening. Miss Martin Peyton and John Upman took the head prizes and B. M. Peyton and Miss Strayer the foot prizes. Those present were Mr. and Mrs. Thomas, Misses B. Simonds Dodge, Strayer, Martin, Peyton, Messrs. Watrous, Peyton, Watson, Cook, Gilbert, Shepard and Upman.

Mr. and Mrs. E. W. Markell entertained last Saturday evening for the members of the hospital board and several physicians were also present. A large number of First Aid to the Injured was present. Mrs. Markell was president. Misses A. E. Markell, Miss Markell, Mrs. Abbott, Mrs. R. C. Hart, Martin Watrous and E. W. Markell. It was very clever and appropriate.

A cob web party was given at Mr. and Mrs. L. D. Campbell's, 301 East Third street. Several hundred happy party little folks entertained in honor of their son Willie. About twenty of his companions and schoolmates were present. There were refreshments, dancing and games.

George H. Prudden, Jr., was at home to his little children yesterday afternoon to celebrate his son's second birthday. Refreshments were served and the little ones carried away in their little canapes. Large decorated cake was topped with baby ribbon and filled with bon bons. Those present were Dorothy Foote, Nellie Fetherston, Minnie Prudden, Mary, Mrs. Foote, Mrs. Foote, Weston Prudden, Howard Crosby, Albert Mosher, John Foote, Harold Fetherson, Mortimer Stanford and Clifford Thurber. An enjoyable time was spent by all.

The engagement of the Max Heilrich concert is filled with the sweetest day to get seats will be next Wednesday. They are expected to get their tickets to the theater to then at top of the Foote's Concert music stores. A number of people who will go to the Assembly will take in the concert first. The concert will be over by 10 o'clock.

The fancy dress ice carnival, which was given at the Union rink last evening, was a brilliant success and the members of the Ladies' Club and the Glen Avon Presbyterian church, the promoters of the affair, may well be pleased with the turnout. In the success attending their efforts, "The scene was a stirring one, the music, the bright costumes and the rapid movement of the dancing stars commanding to start the blood in the phlegmatic onlookers." To the eye of the spectators it was a rapid panorama of motion. And the motion might well have been something to have arrived for Turk and Greek sped along side most amicably, while Ruth and Diana, Franklin and Italian mingled in. If the question of the balance of power had never troubled them and the balance of their own self only has always excluded the taking of the attention. Although the autonomy and anatomy of Turkey was several times threatened by hazards, the girls who were compelled to their friendly intercourse undisturbed.

"Lily-walk-along" was trying a little "skate-along," just for a change and the girls who were somewhat out of her element, yet so astounded has she become to frost, she traveled along as unconcernedly as if her method of skating was nothing but any ice whatever. But it was an "all or nothing" game, and she nearly got up by getting into a furrow, one of her strokes had provided in his turn. A charming picture of the girl in her costume, introduced as "Miss Lawrence," whose stylish figure, albeit rather tall and heavy, was becomingly set off by a well fitted and tasteful skating costume, attracted considerable attention from the young men and introductions were sought for. It was noticed that each man who was introduced, was presented with a card, which was granted invariably, after a few moments conversation, started off to hunt out and bring up some of his friends. In the pleasure of his meeting the bewitching damsels. Not only that, but each and all, all fit to outdo the others, in generosity, importunity and attention, to the friend whom he had introduced. The wonder arose by this general display of interest, only did away as he approached more and more to hear the many tones of "Miss Lawrence" as the compliments of the girls were exchanged with each new-comer.

The grand march, which was taken part in by 150 people in gay costumes, started at 8 o'clock, being led by George and Mary, the dancing led by Murray Peyton and Miss Bessie Strayer, who entered perfectly into the spirit of their parts. Subdivisions of the march in the course of the evolution were led by Miss Speer and J. H. Noyes also in colonial costume. The part of Grover Cleveland was taken by N. A. Gearhart and Miss Marion appeared as Queen Lil. When the round of the grand march

EYES!

The all important subject. If your eyes are getting old and weak, or your head aches after reading, you should have glasses, and then comes the question, where shall I get good fitting glasses? F. D. Day & Co., 315 West Superior street, are the only exclusive manufacturing opticians at the head of the lakes. We mean by that, that we make any style, shape or kind of Spectacle or Eye Glass frame and grind any compound lens your oculist may prescribe. We make free examinations and guarantee a correct fit.

F. D. DAY & CO.,

GRADUATE OPTICIANS.

CITY BRIEFS.

Cullum, dentist, Palladio, "Phone No. 9, Smoke Endion cigar, W. A. Foote.

Dunlap, T. J., factor, residence 259 West Superior street, Duluth, now living.

Hear Dr. Danchey's renowned lecture on "The Higher Criticism of the Bible," in the Auditorium, tomorrow evening at 7:30. This lecture has won wide applause both in the East and West.

The Duluth ski on Fifth avenue west from the Boulevard to Fourth street, tomorrow afternoon.

The Northwestern Temperance Review has increased its monthly space to accommodate the new name, The Human Age.

Revival services will be held in the Norwegian M. E. church every night next week. The Rev. O. H. Johnson, of Minneapolis, will assist Rev. Tolleson in the work.

The general services of A. Youngstrom will be held tomorrow at 7 p.m. from the Swedish Bethel Baptist church, corner Ninth avenue east and Third street.

The public library will be closed on Monday, it being Washington's birthday.

G. H. Thompson had a few of his White Plymouth Rock's in the estate show at St. Paul, and captured two third prizes. Two thousand birds were exhibited.

John Hanson and Thomas Deering, "plain drunks," went up for ten days this morning. Walney Homenay, charged with drunkenness, was let off with a fine.

Judge Boyle presided in Judge Edens' court today, the latter being in attendance at district court as a witness.

The law director and his office shall be closed on Washington's birthday. The day will be serenely observed at the city hall.

The Oleo polo club will play the Woodland team at Glen Avon rink tonight. This will be the second of a series of three games the Orioles having won the first, 6 to 2. Game will be called at \$2.50 sharp.

Every young man and woman in Duluth should hear Dr. Motte's lecture, "The Art of Success." The illustrations are magnificent.

Children one-half prior to De Motte's lecture.

Children, reserve your seats at one-half price for De Motte's lecture.

The ladies of the Lakeside Presbyterian church will give a social entertainment at the church, Wednesday evening, Feb. 25. Musical program, tableau, refreshments and social.

Monday, Washington's birthday, the postoffice boxes will take a little time to them.

The post offices will make the morning delivery all over the city, and in the central business section all the usual deliveries will be made up to noon, but the money order and registry departments will be closed all day.

The ladies of St. Clements church are arranging to entertain their friends at anyster, the musical, to be given in the hall, Twenty-first avenue west, between Second and Third streets, Tuesday evening.

A new and catchy march and two step entitled "The Girl I Love" was composed and published by James Pilkley, key of this city. It was arranged by Alfred Ostroem. Duluth musicians who have heard it predict that the composition will soon find its way to popular favor.

Mrs. Fred Schmitz will give "The Old City" with piano obligato, arranged and played by Mr. A. Hoelscher, Sunday evening at the lecture of Dr. C. L. Smith in the cathedral. In addition to this will be a fine musical program by the choir.

Bishop McGolrick will deliver his sermon at 10:30 tomorrow morning in the cathedral.

The Hiawatha Club was entertained by A. D. Grant, of 112 Twelfth street, last evening. Honors were won by John Stevens and Miss Clara Richardson, and the trophy was given to Mr. Charles Whitman. The next meeting will be held Feb. 26 with Miss Clara Richardson, of 238 Ninteenth avenue west.

The family of a man named Hjelmer, who resided at Second and Sixtieth avenue west, has been reported to the authorities as being in a destitute condition. The husband is said to be very low with consumption and his wife has no means of support. An investigation will be made.

Conrad Bowman, of Ground Lake, was found guilty by Judge Boyle yesterday afternoon of making threats to knock out holes in the nose and dignity of the commonwealth this morning gave the required sum conditional for the space of three months.

He will be allowed the use of the health department, the hospital and the police.

Charles Liles, the Ely Finlander, who was convicted of manslaughter in the first degree, was sentenced to prison, was taken to Stillwater this morning by Under Sheriff J. R. Meinen and Deputy H. R. Randell. Liles was accused of the murder of Gus Holmes and was sentenced to eight years at hard labor in the penitentiary.

Lies Taken to Prison.

Charles Liles, the Ely Finlander, who was convicted of manslaughter in the first degree, was sentenced to prison, was taken to Stillwater this morning by Under Sheriff J. R. Meinen and Deputy H. R. Randell. Liles was accused of the murder of Gus Holmes and was sentenced to eight years at hard labor in the penitentiary.

Two Bishops to Come.

Bishop Williams, of Marquette, is expected to preach in the cathedral. He will preach at St. Paul's Episcopal church tomorrow evening. It is thought probable that Bishop Gilbert will be here Tuesday to attend the services to Bishop and Mrs. Morrison.

PART TWO--

DULUTH EVENING HERALD.

MINNESOTA
HISTORICAL
SOCIETY

SATURDAY, FEBRUARY 20, 1897.

From Major To Magistrate

How Mr. McKinley Will Reach the Highest Position in the Land.

Washington, Feb. 20.—(Special to The Herald.)—The quadrennial swinging of the political pendulum is at hand. Away from one party go the reins of power to be held by another. Democratic Cleveland is to be succeeded by Republican McKinley. It was four years ago President Harrison was succeeded by the man he had beaten in 1888. If there is nothing in the double standard of money, as the victorious party proclaims today, there is certainly in the two-party standard by which our public men are measured as estimated. If it were not for this change nearly every four years at the national election would see the American people go off on their expected procession and parade sparsely. Where would they go? What a satirical Englishman calls "the drum and fifes" they seem to enjoy every year? If it were not for the change of faces down at the White House then would not be much in the inauguration. The people want a new hero to shout over.

The year will divide itself into three distinct parts—the swearing-in and inaugural address, the after-parade and the ball in the evening. As the greatest

cleverland. The president will be surrounded and backed up by most of his cabinet, and after the introductions are over the usual words of general conversation will be some spiritless comments on the disengaged people, for the ways rains or snows on March 4. Meanwhile the vice-president-elect has a senatorial bodyguard, and in the event of his high noon is approaching an immediate start for the capitol is made. The president-elect, the right will be the ex-president, the chief justice of the supreme court, Vice President Hobart, and the secretary and members of the senate. On the left will be the diplomatic corps representing all the nations of the earth. Back of the presidential party will be the retiring cabinet officers, the major general, the admirals and other distinguished people.

It will be interesting to see whether Mr. McKinley takes his first steps given him afterwards by all his Republican predecessors, or imitate President Cleveland and take the oath last, with a short delay thus provided: "I solemnly swear that I will faithfully execute the office of president of the United States, and serve my constituents and the government of the United States." This is sworn upon a Bible.

Immediately after the taking of the oath the party on the part of the military escort takes its place ready to

The Sergeant-at-Arms of the Senate. The Committee of Arrangements. The President and the Vice-President-Elect. The Vice President and the Secretary of the Senate.

Members of the Senate. The Diplomatic Corps. Heads of Departments. The Major General of the Army, commanding the Admirals of the Navy, and the Officers of the Army and Navy, who by name have Received the Thanks of Congress.

Members and Members-elect of the House of Representatives, Governors of States, ex-Members of the Senate, and the members of the Senate and House.

All other persons to have been admitted to the floor of the Senate Chamber, followed by those who have been admitted to the Galleries.

On reaching the portico the east front the president and his escort take their seats nearly in the center of a platform specially built for the occasion. Just next to them are the members of the committee arrangements of the senate, which will be composed of two Republicans and a Democrat. The right will be the ex-president, the chief justice of the supreme court, Vice President Hobart, and the secretary and members of the senate. On the left will be the diplomatic corps representing all the nations of the earth. Back of the presidential party will be the retiring cabinet officers, the major general, the admirals and other distinguished people.

A soon as the president has seated his carriage, which is left so that the people may see them, followed by his vice-president-elect and members of the cabinet, Gen. M. Gen. Horace Porter and his aides precede the presidential party, and the march is made in a strong detachment of regulars from the步兵, cavalry, artillery, infantry and mounted guard of the navy.

Large crowds have gathered along the mile stretch of the avenue east from the White House to the capital. At the top of the hill is a great crush of people. The cavalcade arrives at the north end of the capitol, while the military escort takes its place ready to

surround the president with a laurel wreath, behind which are a shield and mace with the words "March 4, 1897." The names of the members of the cabinet will be furnished by Vice President Hobart.

At the same time the band of the Gilmore's band, who gave the music at the Bradley-Martin ball,

surrounded by a laurel wreath, behind which are a shield and mace with the words "March 4, 1897." The names of the members of the cabinet will be furnished by Vice President Hobart.

FATHER AND MOTHER

Of Little Emma Lemiske, Minneapolis, Tell of Terrible Suffering Endured by Their Daughter and How Quickly Health and Vigor Were Restored by Dr. Charcot's Kola Nervine Tablets.

Every Helpful Parent Should Read This Earnest, Honest Communication

Minneapolis, Minn., May 1, 1896.—**Editor:**—Gentlemen: I wish to make a brief statement regarding Dr. Charcot's Kola Nervine Tablets. I have had many good results from our little daughter, Emma. It was about a year ago we were compelled to take her to Dr. Charcot, who diagnosed her trouble nervous and she could do but little for her. We had to keep her on bed and she was so nervous that she could not sleep quiet at night. She could not get out of bed, finally it got so bad with her nerves that finally she got up with a fork, for fear of her having a fit. Her eyes were closed all day, to relieve her suffering but to no avail. Her friends sent us a friend who recommended Dr. Charcot's Kola Nervine Tablets. I went immediately to John D. Powers' drug store, corner Washington and Plymouth, and was told that Dr. Powers had just come back after taking one box we noticed a change from him. Emma again went right on rising from bed with Emma again with a clear complexion. She was completely restored to good health again, and until now, watching her eat, she eats and drinks well and is getting red cheeks again. She now attends school daily and does credit to our district for nervous sys-

tem any more.

We feel confident that some Dr. Charcot's Kola Nervine Tablets brought about this wonderful change with our little daughter. We deem it our duty to make known to others suffering with nervousness that they may be benefited by our experience. The Kola Nervine Tablets have ever since been recommended. We have had many heartful thanks for having such a wonderful product. We will and will always recommend their use when similar cases occur to our knowledge.

Yours gratefully,

ALFRED LEMISKE,

1578 Elgin Avenue, North.

Dr. Charcot's Kola Nervine Tablets are recommended and prescribed by physicians and dentists as the best known and surest cure in cases of nervous excitability, sleeplessness, nervous dyspepsia, asthma, impaired vision, rheumatism, and all other conditions arising from debilitated nerves. Dr. Charcot's Kola Nervine Tablets do not have them, he will give you a full refund. Price, 50 cents and \$1 per package. Dr. Charcot's Kola Nervine Tablets are made by the Lyman & Custer and Ryan Drug companies, St. Paul, and Sager Drug company, Duluth, wholesale agents.

Ironing is hard enough.

Save your strength for that. Make the rest of the washing easy with **Pearline**.

Soak; boil; rinse—that is all there is to it. The clothes are cleaner and whiter than in the old way: colored goods are brighter; flannels are softer and won't shrink.

Use your **Pearline** just as directed on every package, and you'll get the best results. Don't use more—that only wastes it; don't use less—that only increases your work. Use it alone; no soap with it; nothing but **Pearline**.

Pearline

This is the Package—

remember it. It contains

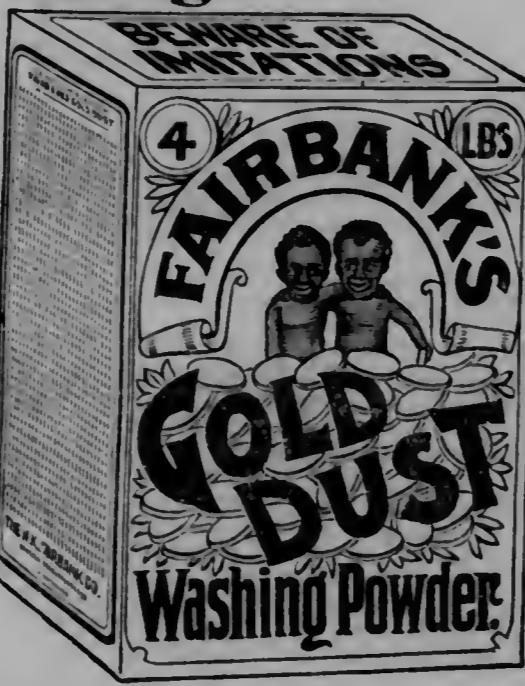

GOLD DUST

Washing Powder

that cleans everything quickly, cheaply and perfectly.

For economy buy 4 lb. package.

No charge for deposit in Chicago. Tickets and particular city ticket office, 401 West Superior street, F. B. Ross, Nor. Pass. Agent.

IN THE LABOR FIELD

All arrangements have been completed for the 8-hour demonstration to be held at the armory on Monday evening, and it promises to be a notable affair. There is, however, not much hope that Mr. Erwin, the eloquent St. Paul attorney, and his colleagues will benefit by our experiments. The new science has ever discovered. We have had to keep our hearts thumped for having such a number of men here Monday evening, and will always recommend their use when similar cases occur to our knowledge.

LUCKY

Tailor Yensel, of Moscow, Idaho, Finds He Is Unexpectedly Rich.

Five Years Ago He Was Paid For Work in Mining Stocks.

Mine is Now Productive and the Tailor is Happy.

Portland, Ore., Feb. 22.—A well known business man just back from a trip in Idaho vouches for the truth of this story of phenomenally good luck:

About two weeks ago a miner offered Morris Yensel, a Moscow, Idaho, tailor, a handful of mining stocks for a suit of clothes. Yensel refused that sort of currency in payment for his labor and goods, on the ground that he had no stock to sell. He remarked that five years ago he had given his stocks of stock, then supposed to be worth 1 cent a share for a suit of clothing. He never realized anything on the stock. The miner jocosely said that if it had been him he would have made him rich. The tailor asked him why, and replied he was quite certain that that was the name of the stock. He could not remember who told him so, as he never expected it to amount to anything. A few days later Yensel went to the Moscow National bank for an insurance policy, and another person deposited there, among whom he found the missing 500 shares of Lerol stock now quoted at \$8 a share with accrued dividends.

The Lerol mine owners have been negotiating with an English syndicate for the sale of the property, but the latter decline to accept their mine and put the transfer of a sum of stock so far issued. This lot of 5000 shares was long advertised for, but now there will be no demand for the sale of the property, if the tailors sell. He demands \$20 a share or \$100,000 for the whole and will probably get it.

SENATOR HANNA.

Gov. Bushnell, of Ohio, Will Appoint Him.

Columbus, Ohio, Feb. 22.—Governor Bushnell has given out the following statement to the press:

"It had been my intention to make no announcement in relation to the next, I would take up the question of an appointment to fill the vacancy in the Ohio representation in the United States Senate until the vacancy actually existed. But, on account of the many inquiries which I have received from their desire to know what will be done, I deem it best now to make the following statement:

"Sen. Sherman resigns to enter the cabinet of President McKinley. I will appoint to succeed him Hon. Augustus A. Hanna, of Cuyahoga county, to serve in his stead. His appointment by the seventy-third general assembly of the state, I trust, this action will meet with the approval of the people. ASA S. BUSHNELL."

HANNA NOTIFIED.

Cleveland, Feb. 22.—Chancellor Hanna was at the Union station yesterday when he was shown the dispatch from Columbus containing Governor Bushnell's announcement of Mr. Hanna's appointment as senator to succeed Mr. Sherman.

This was the first information Mr. Hanna had on the subject. Of course he was pleased, but he showed his pleasure only by a genial smile. When asked if he would discuss the government with him, he declined to say anything, remarking that he could not talk about the matter for publication until he had received official notification of his appointment from Governor Bushnell.

Mr. Hanna remained at this club during the evening and received there the congratulations of such of his friends as heard of his appointment.

SENATOR MITCHELL.

Says the Oregon Condition is Outrageous.

Salem, Ore., Feb. 22.—Yesterday was a very quiet one around the capitol. Nearly all the members left early Saturday, but a few of them will return today, Senator Mitchell, in company with an Associated Press reporter last night, said so far as he was personally concerned, did not care whether he was returned to the office or not. He had said he had no time to spare only by a genial smile. When asked if he would discuss the government with him, he declined to say anything, remarking that he could not talk about the matter for publication until he had received official notification of his appointment from Governor Bushnell.

He characterized the present situation as being "a dead Republican who might be named should be chosen." He characterized the present situation as being "a dead Republican, deserving of condemnation by all having the interests of good government at heart." He was not in the least discouraged over the outlook, "but," was the intention of the minority, who are strong on the legislature, to name a senator. "He did not propose to let them do. He was not in the majority of the situation, and if another person were chosen, he should be named by the majority and not by the minority."

MURKIN'S DEATH.

Pittsburgh, Feb. 22.—The rumor that John G. A. Lishman, who recently resigned from the presidency of the Carnegie Steel company, was a candidate for appointment as minister to Switzerland has been confirmed by H. C. Erdman, president of the Carnegie Steel company, who said Lishman and they can, and a large amount of influence is being brought to bear to secure him the appointment. Mr. Erdman, he stated, desires to remain abroad for a few years and to be pleasantly employed.

A good article of merchandise at a low price will be sold on day. The ladies' muslin skirts, trimmed with embroidered ruffles are going rapidly and won't cost at such a price, 49 cents.

TALKING

Pugilists in Nevada Are Getting Their Jaws Limbered Up.

Julian Appears to Be Engaged in Counting Pugilistic Chickens.

Pompadour Jim Is Inclined to Be Humorous—Rival Jawsmiths.

Many women live under a constant cloud of gloom and depression. The weariness and wearies caused some ailment of their health, like an overhanging demon of disaster ready to descend upon them.

The average doctor can help them much. He has not time to become a specialist, but is the best treatment for these medical troubles. He can give "local treatment" which seldom does any good, and often does harm. No wonder women get disengaged, but they needn't.

Any woman suffering from these delicate complaints will write Dr. R. V. Pierce, a celebrated physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., will receive, free of charge, a personal consultation, advice and suggestion for her treatment. Dr. Pierce is one of the most skillful specialists in the world in treating women's diseases, and his practice is increasing every day, most obstinate difficulties, when all else fails.

J. F. Beverly, Esq., of Goldfield, Colo., writes: "My wife suffered from cold feet, and was unable to sleep soundly in the lower part of the stomach, also had a loss of appetite, tired feelings, restlessness, etc. Dr. Pierce's Favorite Prescription, one bottle of the medicine, will be enough to cure these symptoms. Carlson, New York, Feb. 22.—Martin Julian left San Francisco on the Western express last evening. He will be back Wednesday. When asked the purpose of the trip, he said he was going to buy a stock of provisions and also make arrangements for the hire of Mechanics pavilion for the night of March 21. "On that date, Robert Fitzsimmons, champion pugilist of the world, will appear there before the public of San Francisco," he said, "and give an exhibition after beating the head of Mr. Corbett."

Ernest Roche is as confident as Julian and Hickey is of the success of the event that it to transpire on March 21.

The wrestler said yesterday: "My wrestling with Bob Corbett is hard throughout. Five days ago, however, for the first time since I have been topnotch, I scored a game. I purposefully gave him an opening and to my surprise he took it. My efforts to prevent him from taking my opening were not successful and I am afraid he will score again." Corbett, I think the fight will be all inside of ten rounds. Fitzsimmons is clever and more clever than ever before, before Corbett. I think the fight will be all outside of ten rounds. Fitzsimmons is clever, but he is not as good as Corbett. I think he gets one on his own, even though he gets one on me. I want to tell you that it will take thirty pounds off him."

"My reason for this statement is because when I saw him I saw him fighting with Maher. I am afraid minded persons will agree with me when I say Maher is one of the hardest fighters in the ring there is. Well, he smacked Bob Corbett good last night, but the blows did not bother him at all. When Fitzsimmons landed on the shoulder, Corbett was dislodged and one more little pitch put him to sleep. Corbett's game will probably be to span at long range, the same as he fought Sullivan, but as soon as he begins to move, he will be a little less keen to keep moving, but it will be a little less before Corbett is put out."

"Many people profess to believe that Corbett is able to land one of his own, but I don't believe that he can do it.

"Friends in Grand Forks as well as in Winona are exercised over the sudden disappearance of Miss Louise Groves, of the latter place. She disappeared between the two places last Saturday.

SOUTH DAKOTA.

Miss Louise Cavalier, who has been a member of the Cheyenne for the past sixteen years has been promoted to superintendent of the government school at Santeetlah agency, Nebraska.

Miss Cavalier has made a splendid start.

While ranching on most of the ranges report their stock to be all right and no doubt about their pull.

"About this time last year, when I was on the range, I was told that the Indian police seem to be responsible for the cattle losses. Many narrow escapes occurred by Indians who got out in the open nothing. The Indians are owned by William Justice and was the first brick built in the city. The first brick house at \$25,000 and insurance at \$10,000."

EDWARD T. KEEYARD.

Feb. 22.—Says the Herald that Edward T. Keeyard, of Jamestown, has brought suit against the Northern Pacific and the railroad for damages for injury sustained while on board train.

He claims that a car door was left unguarded while the train was moving rapidly over a rocky track.

He was thrown from the platform through the door to the ground. He fell upon his left side, severely bruising many parts of his body, with his right arm dislocated and broken at the elbow. He was unaware of his location and was compelled to walk eight miles to find Why not?"

"Mitchell landed on Corbett and Corbett could not say how much he could earn our man, with his advantage in reach and everything else too?"

"Take my word for it, as soon as I get to town I will be all over, but it will be a little while before Corbett is put out."

WEST END

Mayor Truesen Requested to Appoint M. Jacoby to the Board.

Committee Also Decides to Put Some Questions to Alderman Sang.

Street Railway Company Forced to Remove Snow From the Streets.

Tomorrow afternoon at 1 o'clock Mayor Truesen will be waited upon by a committee, representing a Swedish mass meeting held at Good Templars hall, Saturday evening, to urge him to appoint M. Jacoby a member of the board of public works to succeed M. J. Davis, whose term expires March 1. The committee consists of Otto Erickson, Anton Johnson, Hans Lunding, Otto Givert and C. P. Wilmer. The meeting at which it was discussed over 100 voters were present, it was claimed, and the resolutions adopted by the meeting called for the appointment of W. H. Smith and Frank Tims as a member of the board, because neither of them, it was claimed, represented W. H. Davis, Smith living at Smithville and Tims in the Seventh ward.

In a set of resolutions which the committee will duly present to the mayor tomorrow, these facts are set forth: "That the appointment desired, Mr. Jacoby, was for a number of years in charge of the West Duluth water works, and he constructed most of the plant, and did labor instead of the contract system, and that he had done the work not only cheaply, but well. The resolutions adopted by the meeting carried by vote of the resolution adopted by the committee, providing for the construction of the new water works by contract, and urge that the work be let under the supervision of the board of public works, labor being employed by the day."

The meeting also instructed its committee to wait on the city manager and demand an explanation of his vote favoring the contract system in building the waterworks when it is the committee's promise, as it was promised, that he would stand by the laboring classes and favor the work being done by the day.

Mr. Erickson, a conditionalist, confidence in securing the coveted appointment. It was claimed at that meeting Saturday night that the mayor had agreed that the next member of the board of public works, labor would be selected from the Eleventh ward.

REMOVING THE SNOW.
The street railway company has had several gangs of men at work today clearing its lines of snow in the West End. In a number of places snow is piled up higher than the top of the track that snow plows are practically useless in clearing it away when drifting. The banks are encroaching dangerous on the other side, and they can be removed only by shovels. Men were put to work at 3 o'clock this morning, so that cars found no difficulty in getting through on their first trip.

NOTICE TO HERALD READERS.
Persons having communications or announcements or news items of interest to West End readers of The Evening Herald, please leave them at the office of L. A. Baier, Room 3, Manufacturers building, and they will be given prompt attention.

WEST DULUTH BRIEFS.
An entertainment for the benefit of St. James' Catholic church will be given tomorrow evening in Great Eastern hall. The proceeds will go to the relief of the poor in the city.

The much talked of masque ball of the Free Miners took place today in A. O. U. W. hall. Fine tickets have been sold to insure a large attendance, and some of the costumes prepared for the event.

Official Paper of St. Louis County.

HERALD'S CIRCULATION HIGH-WATER MARK

17,148.**THE WEATHER.**

United States Agricultural Department Weather Bureau, Duluth, Sympath of weather for the last twenty-four hours ending at 7 a.m. (Central time) Feb. 22.—Moderate to heavy rains or snow, with gales, in the Mississippi and Lower Missouri valleys, the Southwest and the western part of the lake region. Moderate to heavy rain of an area of low pressure from Kansas to Lake Michigan since yesterday morning. Gale force winds from Chicago and Milwaukee, La Crosse and St. Paul to the Gulf states. The Gulf states that weather is cloudy. Gale force winds are reported in Montana and the Dakotas.

The temperature is 10 to 20 degrees below zero in the region north of Montana, which has been cold for the past twenty-four hours. It has fallen decidedly in that section during the past twenty-four hours. In the lakes area it has been cold with temperatures at 7 a.m. to 100 degrees ranging from above zero at Port Arthur to 65 at Menard.

Duluth temperature at 7 a.m. today, 21; maximum yesterday, 10; minimum yesterday, 8.

Local forecast for Duluth says: Cloudy and colder tonight; fair, with cold winds shifting to the north.

JAMES KIRKCALDY,
Local Forecast Official.

AN EXPENSIVE COURT.
Representative Schmidt thinks he has been unjustly criticized in regard to his failure to place the special judge of the municipal court on a salary of \$2000 a year—the same amount as the regular judge receives. The special judge receives \$10 for each day he serves. Mr. Schmidt says he introduced the bill because it was forwarded to him with the endorsement of a committee of the Bar association and that he does not propose to press it if public sentiment opposes it. Mr. Schmidt is therefore entitled to freedom from criticism.

The fact that certain people have recommended the passage of the bill does not remove its bad features. The Duluth municipal court is conducted in a most extravagant style, and it is time to cut down its expenses instead of increasing them, as this bill would do. The cities of St. Paul and Minneapolis have municipal courts which cost no more or very little more than the municipal court, and the business there is every bit greater than it is here. There is no reason why a municipal court in a city the size of Duluth should require two judges, a clerk and an assistant, a stenographer and three bailiffs. The court can be run in a much more economical manner and as efficiently.

The present system of paying the special judge \$10 a day when his services are required is wrong, but to pay him a salary of \$2000 a year would be an outrage upon the already overburdened taxpayers. Only a few months ago there was a case involving \$75 heard by the municipal court. He charged \$10 a day for the day he sat on the case and \$10 a day for five days that the briefs were held by him in his office—a total of \$60 to decide a case involving \$75. There are other flagrant examples which might be cited in confirmation of the present system. The proper thing to do is to put the special judge on a salary of \$1200 a year, to be called when needed by the regular judge, or to abolish the office altogether. As the time is near at hand to appoint bailiffs, Mayor Trueson should make a note of the fact that two bailiffs are sufficient for this court.

HANNA TO BE SENATOR.

The formal announcement of Governor Bushnell, of Ohio, that he will appoint Mark Hanna to the United States senate, where Senator Sherman resigns next March, is an indication that the next administration has triumphed. What the terms of his appointment have not been stated, but it is safe to say that the Foraker-Bushnell crowd have been promised a liberal share of the federal patronage in order to remove Governor Bushnell's well-known antipathy to Mr. Hanna. The fact that the governor has made the announcement before a vacancy in the senatorial actually exists leads to the belief that Mr. Hanna deserves to have a public statement which would hold the governor and that the arrangement entered into by the leaders of the two factions was contingent upon this early announcement.

Governor Bushnell says: "I trust this action will meet with the approval of the people." It will be noticed that the governor does not say he believes or expects it will be a popular appointment, because he knows it will not cause any popular demonstration.

and Maj. McKinley's character is an ample defense against such an aspersions, so far as he is concerned. It rests with congress, therefore, to fulfill the obligation or accept the responsibility of its betrayal of public faith. There is no other alternative.

The Star adds: "There is no doubt, much truth in the statement that the promise of an international monetary conference was simply put in the platform as a vote-catcher and without the least intention of carrying it out. The party platform should be a fairly capable of even so large an act. But the better elements in all the parties should join in the condemnation of such dished. A party platform should be in fact what it pretends to be—a declaration of political principles as binding on those who accept them as the laws of the land are on the people. When politicians come to understand that parties will be held responsible for the violation of pledges they will be more careful about what they promise. In the case in question the pledge probably didn't secure an electoral vote to the successful candidate, but it was made, nevertheless, and ought to be carried.

Even though the majority of the conference came to this conclusion, and consequently decided to favorably report the bill, the Republican majority in the house cannot afford to revere consideration of the measure or to vote it down.

THE NEXT CABINET.

The next secretary of the interior will come from New York. It was thought that Col. McCook was to be attorney general, but latest advices from Canton indicate that owing to the outcry against a corporation lawyer being given that place he will be secretary of the interior and Judge McKinley, of California, will be attorney general. It was thought the judge would be at the head of the interior department, but fear of criticism by those interested in non-sectarian Indian schools, because he is a Catholic, prompted Mr. McKinley to shift the portfolios. Mr. McKinley thus secures an able attorney general and bright, shrewd man for secretary of the interior.

Mars is at it again! They say that he is signalling the earth by some electric method and she does not know how to answer. It is Sir Francis Galton, of Kew Observatory, who is responsible for the latest affirmations in regard to interplanetary communication. Sir Francis is always more than up to date, says the Boston Transcript. It was he who was among the first to go to the White Nile country nearly fifty years ago, and thirty years or so ago he was the first to make progress in the elements of the weather on a large scale. He set for the anti-explosive theory. And if any body may be expected to find out a way to talk back to Mars, Sir Francis may be depended upon for a theory.

The reports of the commercial agencies last week were of a favorable character, and the New York Financier of Saturday was quite optimistic in regard to the outlook. The Financier said: "Despite the accumulation of money in the great centers, forwarded for the most part, to secure the small bank interest allowed on it, evidences of a general revival in business continue to receive from different sources." The South, especially, seems to be on the verge of a genuine recovery in trade, and reports received during the week are of some encouraging nature. The opening of the spring season there, it is believed, will be the most auspicious since the panic, and the rest of the country will witness a similar awakening from the lethargy of the past few years. These balances will much more than cover the interest payable abroad at the beginning of March.

The reports of the commercial agencies last week were of a favorable character, and the New York Financier of Saturday was quite optimistic in regard to the outlook. The Financier said: "Despite the accumulation of money in the great centers, forwarded for the most part, to secure the small bank interest allowed on it, evidences of a general revival in business continue to receive from different sources." The South, especially, seems to be on the verge of a genuine recovery in trade, and reports received during the week are of some encouraging nature. The opening of the spring season there, it is believed, will be the most auspicious since the panic, and the rest of the country will witness a similar awakening from the lethargy of the past few years. These balances will much more than cover the interest payable abroad at the beginning of March.

The investigation of the coffee trust has opened the eyes of the people to a number of things and has brought out the statements from a New York man that the thousands of people who speak of their "morning cup of Mocha" do not know what they are talking about. According to this person, who is George H. Livingstone, the official records of the port of New York show that in the last eight years "only four bags of actual, genuine Mocha coffee" have been imported into this country, and that these sacks were presents to certain New York and Philadelphia families.

The governor of Indiana has requested the editors of that state to send him copies of all their comments on bills before the legislature, in order that he may learn the popular desire on these measures. When Governor Morton discusses how many different opinions are held regarding certain bills he will be more puzzled than ever to decide what the people want.

When Benjamin Franklin's brother started the second newspaper then existing in the country, he was thought to be rash, as there was not a field for two side the water, but now daily papers are published in ten American colleges and universities, to say nothing of a few outside.

The great nations of Europe engaged in upholding the Turks in Crete form a disgusting spectacle. And almost as disgusting is the attitude of the American government towards Cuba.

The adjournment of the grand jury permits some people to breathe easier.

Only to think that John Sherman should be succeeded by Mark Hanna!

And the next day it snowed.

ARACADY.
I started off one perfect day,
In joy along the king's highway;
I knew no care, I knew no doubt,
And wherefore else? 'Twas fair about
My destiny of heart to hear
From Aracady.

But presently I weary heard—
Long leagues behind me lay a few
Or many, none could answer me,
How many leagues to Aracady.

Yet, as I followed along, I met
The fair goat that had tempted me.
Foward the fair goat that had tempted me.
The storied realm of Aracady.

"Prithee," I said, "together let's
This way, pursue that charms then frets,
For me no more the strange unrest
Or sharp impatience in my breast,
How many leaps to Aracady."

"Dear heart," I said, "I wonder why?
To which she, blushing made reply,
That place to them is Aracady.

ONE MORAL FOUND.
Duluth Herald: A woman has just died in Wades at the age of 96 years and 11 months. She was a moral, temperate smoker, who was in this brief story.

Chances are good that we will be pleased to see her in our next issue.

There is nothing ambiguous about that, the Star contends. It is a plain promise to perform a certain thing, the fulfillment of which requires the passage of the pending bill. It will not do to say that the declaration of the platform was made for political purposes only, as some members of congress have stated, That implies a low standard of morals,

and joy. For the moment, however, the Oho factions have buried the hatchet and outward harmony prevails. But this happy state of affairs will not last long. The feeling is too bitter to be hastily obliterated. When the next legislative campaign opens, look out for another liberal display of knives.

SIGNS OF IMPROVEMENT.

In his last weekly circular, Henry Clews draws attention to the large number of buyers who have arrived in New York from all sections of the country. There is no question that this is a sign of business revival, because the interior merchants have been slow to make purchases as long as the business conditions were uncertain or adverse. Within nine days less than 1300 dry goods buyers arrived in New York. The woolen goods trade shows a distinct recovery, and mills that have been closed for months are resuming work. A similar recovery is apparent nearly all over the country. The interior buyers are discriminating and careful, but the aggregate of their purchases is making a satisfactory impression on the market.

Atwater Republican: The question of county option is an ample defense against such an asper-

COUNTY OPTION BILL.

Erik River Star News: We do not agree with the Star Club Journal Press in its raid on the bill to county option law; nevertheless, we fear should the bill pass the legislature, we now seem unlikely, that the reform will be given up. The reform is receiving a good deal of attention at the hands of the legislature, this simple means that the liquor dealers should be liable for furnishing the temperance committees with supplies. When the average legislator talks of an option he invariably winds the other end of the string.

Atwater Republican: The question of county option as to licensing the sale of intoxicating liquors is becoming more and more prominent in legislation. Those who have had any experience in fighting blind pigs will undoubtedly prefer to have the law in their respective districts.

Waterville Advance: We trust our state legislators will have the good sense to kill the proposed local option law. If we close the saloons liquor dealers will be compelled to buy what now oppose the measure will work diligently for it. But wherever tried, Maine to Kansas, it has proven a failure, and in every state of litigation and evasion. What we want is not more law on this point but a more rigid enforcement of the present law.

Waterloo Advance: We trust our state legislators will have the good sense to kill the proposed local option law. If we close the saloons liquor dealers will be compelled to buy what now oppose the measure will work dilig-

CONSUMPTION.

The Terror of the 19th Century. A Disease That Attacks All Classes. Formerly Considered Hopeless.

Consumption a few years ago was considered absolutely incurable. The best doctors today concur that this disease is cured in many instances by proper treatment. This cure is attended by the inability of the body to digest food and to assimilate the food taken into the stomach to create new tissue. This is due to the impaired condition of the digestive organs.

Local option: Local option is receiving a good deal of attention at the hands of the legislature, this simple means that the liquor dealers should be liable for furnishing the temperance committees with supplies.

Atwater Republican: The question of county option as to licensing the sale of intoxicating liquors is becoming more and more prominent in legislation. Those who have had any experience in fighting blind pigs will work dilig-

INDIANS

At Present All is Quiet in the Mason Valley District.

Indian Police on the Reservations Impotent to Restraine the Reds.

Adjutant General Galusha Is Investigating the Hostile Rumors.

Virginia, Feb. 23.—Col. Ford received a dispatch from Adjut. Gen. Galusha dated Yerington last night, stating that all was quiet there. An adjutant general from Government was of the same tenor that Galusha sent. A special train with the locomotive fired up, was kept in waiting at the depot here all night. The adjutant general will go to the front, fourteen miles beyond Yerington, today. Snow in the valley is two feet deep, and the temperature is down to 14 degrees above zero.

It is said that the Indian police at the reservation proved impotent to restrain their drunken brood from going on the war path. Should no action be found serious by the adjutant general, the families of the settlers in the valley will be sent to the towns of Yerington and Virginia for protection. There is no wire between Yerington and Wahsukus, which is thirteen miles off the main point, and it is four miles from the town to the Indian camp in the mountains.

Until the adjutant general's return from the front camp in the mountains will be obtained. The number of Indians in the state is estimated at between 5000 and 6000; 4000 Putes in Northern Minnesota, and with those at the reservations, the tribe could muster a formidable well armed force of a thousand or more.

The white population of Mason valley, outside of the towns of Yerington and Wahsukus is estimated at 300, and the dispatches received in and justify. The Nevada guard is reported to be companies of infantry and one battery of artillery. The Reno guard is equal to a Gathering gun, but is a monster company, composed of ten mounted smooth bore guns of 12-pound calibre. In an emergency 500 volunteers could be called out on the Comstock in a few hours of alarm. The men of the field, as many of them are old Indian fighters and still hold a grudge against the Putes for atrocities committed in 1860 during the war in Minnesota.

DRAGGED TO DEATH.

Lumberman Bailey's Sudden and Violent End.

Williamsport, Pa., Feb. 23.—Edward Bailey, a lumberman in the Pine Creek section, and his brother John, were bringing a team of draught horses from Blackwater to Cedar Run last night. Edward sat in the buggy with the team attached to the team wound about his body while he drove the horses attached to the buggy. The way was along what is known as the "Narrows," and John led the way with a lantern. It was storming, and the team took fright.

Edward was jerked from the buggy and the team dragged him fully half a mile when he plunged over an embankment, forty feet high, carrying Bailey in the air.

A track walker on the Fall Brook road found a portion of the team lying between the rails, and under one of the horses was that of the driver. The track walker flagged the Williamsport express, and the body of Bailey was taken on board. The accident occurred at almost the same spot where the Fall Brook passenger train was rolled into the creek by a log three weeks ago.

PARKHURST ILL.

New York's Noted Divine is an Invalid.

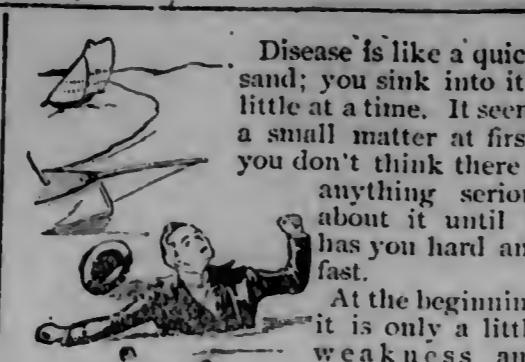

New York, Feb. 22.—Nervous collapse caused by overwork is the physician's diagnosis of the case of Dr. Charles H. Parkhurst, who has been seriously ill for over a week in his home in this city. There is a slight change for the better in the doctor's condition, but his mental and physical condition are considerably affected, and it will probably be some time before he can return to his pulpit. His doctor is very sick, said Mrs. Parkhurst, "and I am beginning to fear he will not suffer any permanent injury to his health through his illness."

BRYAN AT SALEM.

Visits His Old School-Room and Talks.

Salem, Ill., Feb. 23.—William J. Bryan, wife and daughter spent Washington's birthday here and paid a visit to the public square where Bryan attended in his youth. He addressed pupils on Washington's birthday and offered two valuable prizes to be awarded by the board of education from year to year to two pupils standing the highest in orators.

SENATOR MITCHELL'S OFFER.—Feb. 22.—John C. Mitchell has written a letter stating his willingness to withdraw from the senatorial contest in order that a Republican senator may be elected.

LANKY BOB

Fitzsimmons Tells What He Will Do With Corbett In March.

The Antipodean Discourses Rather Interestingly About Who is Champion.

Says He is the Only "Simon Pure Article"—Corbett's Remarks.

J. W. Jordan, Esq., of Corbin, Whitley Co., Ky., writes: "About two and a half years ago I was at Yerington, Ky., I was taken with severe pains in chest, heart, head, and limbs. My blood was also troubled with night-sweats and I could not sleep. I had to walk half a mile at once, and if I got fatigued I would have an attack of phthisis (lung disease). I took a walk, and after a week I was well again. I then took a walk with Dr. Pierce's 'Golden Medical Discovery.' It took a hand, and I was soon in strength and in weight. I have not had the phthisis, nor spit any blood since last spring."

NO REMEDY FOR CONSTIPATION.

Chicago, Feb. 22.—Retail merchants from every state in the West and Southern West are in Chicago this week. Officers of the National Association of Merchants and Traders, which twice within the last six months had large mercantile gatherings in this city, are in attendance. Compilers of the "Book of James," H. Eckels will address the merchants Friday evening at Central Music Hall. It is expected to be a monster rally of the business interests of Chicago. Prominent manufacturers, merchants and bankers will occupy seats on platform and in the boxes. Mr. Eckels will speak on "The Rights of Our Business World."

Franklin McVeagh will preside other sessions of the merchants' conference interest, especially concerning favorable rates on railroads, etc.

In an emergency 500 volunteers could be called out on the Comstock in a few hours of alarm. The men of the field, as many of them are old Indian fighters and still hold a grudge against the Putes for atrocities committed in 1860 during the war in Minnesota.

The white population of Mason valley, outside of the towns of Yerington and Wahsukus is estimated at 300, and the dispatches received in and justify. The Nevada guard is reported to be companies of infantry and one battery of artillery. The Reno guard is equal to a Gathering gun, but is a monster company, composed of ten mounted smooth bore guns of 12-pound calibre. RED HOT

A Human Salamander Who
Easily Endures the Most
Extreme Heat.

A Valuable Man to the Iron
Furnaces is Jacob H.
Boyer.

Revels in Fire Which Would
Consume Other Ordin-
ary Men.

Perhaps there is no man in Phoenixville, Pa., better known than Jacob H. Boyer, who is chief bricklayer for a big local iron company. He is better known far and near as the "human salamander," or fireproof man. (See his biography on page 18.) His wonderful ability to stand great heat, says the Philadelphia Press, Phoenixville is quite a commercial center, especially for the iron and steel trade, and hardly a day passes but when a cold front comes to town, and he bravely stands before the furnaces, as fireproof man, before he has been in town any length of time, for he has heard of him somewhere in his travels, and is anxious to see the man who dares to enter a great yarning furnace heated so hot that his shadow burns from his back and his shadow has feet.

Jacob H. Boyer is now a man of some 55 years of age, and a grandfather. He comes from Pennsylvania, German stock. He was born and reared in West Pickettton township, about three miles from Phoenixville. He was educated in the little eight-roomed school house near his home. It is said that he often amused and startled his playfellows by his remarkable ability to stand the heat. They would bring cold tires to see who could stand the heat best to the blaze, and Boyer always won the prize, for he had his hair singed off at the bottom nearly bare from his back more than once. He once sat on a brush heap while it burned from under him, and came off with no injury. He was a good boy, a good child, and shoes. For that feat he was flogged by his teacher, and when he reached home with the charred remains of clothing, his father in shame, his father gave him another flogging as punishment for his foolish act; the Boyers had no money to throw away in clothes.

When Boyer was a youth of 17 years he went to learn the trade of bricklayer. In time he became a journeyman, and gained a front he helped to lay. In the heat of employment with an iron company, which work was more to his keeping, he had to stand the heat. He did this by working about the great furnaces. He had not been long in the employ of the iron company before he gave his employer a follow-up, some startling exhibition of his power to stand the heat. Sometimes the furnaces would get out of repair, and it would become necessary to repair them while they were still hot that time might not be lost.

One day a furnace part fell in and he was forced, for safety's sake, to have pairs to be made. The boss bricklayer did not see how it could be done, as the furnace was smoking hot, and he thought the man would dare venture into it. Boyer was standing by, and at once volunteered to make the part.

"Well, fool," said the old man, "you will be roasted alive if you venture into that furnace as hot as it now is."

"Never mind," said Boyer, "I will fix it."

And he did. He went into that furnace and replaced the bricks that had fallen in, and had little trouble, for the stones and mortar were hot like the water of a darting fish. His hair and beard were singed and curried by the heat, his clothes were scorched, and the soles of his shoes twisted and charred.

That daring feat won for Boyer the title of the "fireproof man." In time the head of the bricklayers of the iron works sent for him, and immediately appointed to fill the vacancy. He was now his own "boss," and had no one to tell him for his daring feats. Since he was in charge of all the bricklayers of the works he had never asked any one of his employees to risk his life, always himself assuming any risk to be taken. Many times he entered furnaces when his men never expected to see him return alive, for the works anything but easy. The bricklayer never fails to do his best, but when he is wanted badly, and must respond, at once, shows always are expected. Everything may be gone or all right, when all of a sudden a brick or two may fall in while the furnace is in heat, and unless he is replaced the whole house may be lost or a conglomeration of bricks and molten steel, known to iron and steel workers as a "molten bath." If the bath falls in there is danger of others following in. In order to save the furnace and the metal therein the brick must be replaced. This is an iron hot job for the furnace is heated to a white heat, and the molten steel seethes and boils like so much water.

In such emergencies Boyer is in demand. He learns to spot in which the brick or bricks have been replaced. Often the tongue bends in his mouth to replace it with another, for the furnace of which was never hotter. But he replaces the fallen brick. He wraps his face carefully with a leather shirt, girds his hands, and with his coat over his shoulders stands at the door of the furnace and waits until the brick or bricks have been replaced. Often the tongue bends in his mouth to replace it with another, for his hands and his mouth are too warm for his face. He works over seething molten steel that snarls and spits worse than the crater of a volcano full of burning lava. Some idea of intense heat may be had when it is said that one of these great Phoenixville furnaces contains forty or forty-five tons of iron, and is heated to a temperature of 2000 degrees Fahrenheit. There are several of these mammoth furnaces, and any one may need some repairs at any time.

If there is any one thing that is especially undesirable about a steel plant it is for a "salamander" to form

FIRE FIEND'S WORK.
Merchants Exchange in St. Louis Badly Damaged.

St. Louis, Feb. 21.—At 2:30 a.m., flames were discovered breaking forth from the roof of the Merchants Exchange building, which occupies two-thirds of the block on Third street, bounded by Chestnut and Pine. The fire started in the elevator shaft, presumably from defective light wires and spread to the office on the top floor. These alarms were turned off and the large number of engines called out got the flames under control by 5:30 o'clock. The fire is continuing to the eastern end of the portion of the building and was mostly caused by heat with which the roof was flooded. The officers on the spot were damaged considerably and those on the floors below suffered somewhat from water. No damage was done to the high-class trading is going on as usual today. The fire streets and the mass of overhead wires hampered the work of the firemen and had put the building in imminent danger of the fire would undoubtedly have destroyed it.

Guests at the Planters hotel, about a block distant, were frightened and rushed from the rooms in tumult when they learned that they were in no danger. The loss will probably exceed \$50,000, fully covered by insurance.

CHICAGO HOTEL SCORCHED.—Chicago, Feb. 21.—A fire, started only this morning in the Park Hotel at the World's fair terminus of the railroad, and threatened for a while to burn the building down, was finally brought under control with a loss not to exceed \$25,000. Many of the fifty-eight families living in the building had to be assisted out.

SACRAMENTO HOTEL BURNED.—Sacramento, Feb. 21.—A fire, started in the Park Hotel at the World's fair terminus of the railroad, and threatened for a while to burn the building down, was finally brought under control with a loss not to exceed \$25,000. Many of the fifty-eight families living in the building had to be assisted out.

OSWEGO'S HOTEL BLAZE.—Syracuse, N. Y., Feb. 21.—The Ringling Brothers and their six adjoining smaller buildings were destroyed by fire at 2 o'clock this morning. There were thirty guests in the hotel at the time, who were rescued by the police and women. The loss will amount to \$75,000.

HUMAN SKELETONS.

Five Found in a New Jersey Trench.

Riverton, N. J., Feb. 21.—While workmen were digging a trench in the property of Henry C. Drer, near the Delaware river front, they unearthed from the soft mud soil five human skeletons. The bones were scattered and found in a near a dense growth of undergrowth, which screens the river front. The physician who examined them said that one gave evidence of comparative recent burial. This latter was apparently buried in a shallow grave. The skull was fractured and seemed to have been crushed in by a blow.

No definite theory can be advanced as to how the skeletons came there. The spot where they were found is in the bed of the Faunes fish cabin, which is used by shad fishermen in the spring.

RUBBER FACTORIES TO CLOSE.—Bridgewater, N. J., Feb. 21.—The works of the National India Rubber company will close about March 6, owing to lack of orders and prospects of a dull rubber mar-

WORKING

Both Houses of the Legislature Getting Through With Much Business.

McDonald's Street Railroad Bill Again Killed in the House.

Board of Pardons Bill Was Amended in the Senate—Other Legislation.

St. Paul, Feb. 21.—(Special to The Herald).—In the house today, the railroad committee reported H. E. 18, the McDonald bill, granting judicial power to the railroad commission, with a request for an opinion as to its constitutionality from the judiciary committee, after which the railroad committee voted to consider it again. The Reeves bill relating to liability for railroads was favorably recommended. The Dale automatic coupling device bill was indefinitely postponed.

The McDonald bill, including street railroads, and the second of the rail road commission was again killed. A former report having been reversed and the bill recommitted. This time the bill was referred to the judiciary committee, but the committee held to its original vote.

The Peterson Offer Tull county seed grain loan bill was indefinitely postponed on advice of the appropriations committee, the same being referred by the same committee being made on the Mansfield bill for distribution of school district funds, also the Smith bill to provide for the transfer of independent school districts, applying to Minneapolis, which was under consideration of the rules.

Among the new bills were the following:

Head limiting aggregate county bond indebtedness to 2 per cent of the assessed valuation of the county, and limiting interest to 5 per cent. Judg. clay.

Tuition, providing for payment of fees for students in criminal cases.

Vall, to appropriate \$10,000 for construction of bridges in Laramie county introduced by unanimous consent. Roads and bridges.

Schmidt, fixing the time within which action to enforce certain leases may be taken, so that the same may commence within one year before than one year prior to the passage thereof. The bill went to the judiciary committee.

On account of the small attendance, the calendar was passed over, and the house adjourned until noon.

Mr. Dahl presided. There was no further debate over the Schmidt bill, and it was referred to the judiciary committee.

There was some question as to whether the funds are actually deposited in banks.

Bartels, as his friends have all agreed, stated that he has given every intimation as to what banks hold the money. It is believed by those in the calendar that a sum variously stated has been deposited in the bank of the state treasurer.

P. F. 14, to legalize incorporation of villages.

S. F. 65, Ferris, relating to mortgages foreclosures.

S. F. 49, Smith, relating to terms of court in unorganized communities.

S. F. 22, Hodge, relating to land grants, making effective the Andrewland grant tax amendment.

A recess was then taken till 2 o'clock when the Foss inheritance tax was taken up as a special order.

NATIONAL LEAGUE BASEBALL.

Baltimore, Feb. 21.—Members of the National League began to arrive in Baltimore to attend the schedule meeting, which begins tomorrow morning. Rooms have been arranged for the members, and they are so arranged that New York, Philadelphia, Brooklyn, Boston and Chicago representatives will be together. The members of the club will be interested in the other clubs will have adjoining apartments. Thus, it will be seen the "big five" and the "little four" will be arranged against each other from the start. It is asserted that an olive branch will be extended to the "big five" in the form of an additional vote or two, or more, given to each club.

Then the senate got back to the Indian bill.

FAMILY ASPHYXIATED.

Six Lives Lost in a Peculiar Manner.

Minneapolis, Feb. 21.—(Special to The Herald).—A special to The Dispatch says: The Mrs. August Hanson and four children are dead from gas a straw burning heater. Hanson, himself, is dying. Only one of the family, a young boy, is recovering.

BLAZE IN BISMARCK.

St. Paul, Feb. 21.—(Special to The Dispatch).—The residence of Alexander Frame, a clothing merchant, was burned early this morning. The family escaped during their night robes, and were rescued by neighbors. The home, valued at about \$50,000, was directly under the control of the secretary of war.

BISHOP QUIGLEY CONSECRATED.

Buffalo, Feb. 21.—The Rev. E. J. Quigley, rector of St. Paul's church in this city was today elevated to the position of bishop of the Roman Catholic diocese of Buffalo. Archbishop Corrigan of Rochester; Bishop McQuade, of Brooklyn; Dean Brougham, of Batavia; Fr. Vassar, of Lyons; Fr. Conroy, and O'Neil, of this city. Besides these names there were present Archbishop Walsh, of Toronto; Bishops Gabriele, Wigzer and McPaul, Msgr. Barretti and Deregi, head of the Passionist order in this city.

NOT VERY PROMISING.

Desires of Capt. Castle and Monroe Nichols.

Washington, Feb. 21.—(Special to The Herald).—Henry A. Castle of St. Paul and Monroe Nichols of Duluth, are probably giving some trouble in office under the McKinley administration from Minnesota. Nichols is seeking a foreign consulship, as is now known in Duluth, and wishes to be the next first assistant postmaster general. Both are experienced business men.

We do not know the secret that so many Minnesota Republicans are seeking high places. Senator Davis might be able to land one or both of them in the office of Postmaster General. The outlook is not considered exceedingly bright for either Nichols or Castle.

WANTS A CONSULSHIP.

W. R. Estes Would Again Serve His Country.

Washington, Feb. 21.—(Special to The Herald).—W. R. Estes of Madelia, Minn., will soon arrive in Washington. He is a candidate for consul general to Berlin. It is said, however, that Estes will be perfectly satisfied with an office of much less prominence and salary.

BICYCLE RACERS.

Hale Has Lost Heart at the Chicago Event.

Chicago, Feb. 21.—Following is the score in the six day bicycle race at 9:45 a.m. Schimmein, \$35; Ashing, \$30; Miller, \$28; Lawson, \$27; Stewart, \$22; Bradis, \$18; Hale, \$16. Hale left the track half-past eight and did not return until 8:30 a.m. this morning, when he only for an hour. While Hale has not withdrawn he seems to have lost interest in the outcome of the race.

At 2:15 the score in the 6-day bicycle race was: Hale, \$81; Miller, \$32; Ashing, \$33; Lawson, \$27; Stewart, \$22; Bradis, \$18; Hale, \$16.

STEEL MARKET STRONG.

Rail Boom is Responsible Partly for It.

Chicago, Feb. 21.—The Industrial World tomorrow will say: The expected benefits of the enormous sales of steel rails have come. Steel rails have been sold in excess of \$100,000,000 worth of steel rods have been sold from \$2 to \$20. The Western steel market is strong and it has been for three months. There is a regular inquiry for all kinds of steel products—bars, beams, plates, structural shapes, etc. Sales have been more numerous and prices are still holding firm in view of the fact that they have been further decline. Many consumers are asking for prices. Local currency No. 2 is still quoted at \$1.

NEBRASKA'S TREASURY.

Bartley's Shortage is Over Half a Million.

Lincoln, Feb. 21.—Much speculation and but little information can be gained concerning the situation of the state treasury. Since the statement was given out by Treasurer Reserve last week no more money has been paid into the treasury.

There is still some question as to whether the funds are actually deposited in banks.

Bartels, as his friends have all agreed, stated that he has given every intimation as to what banks hold the money. It is believed by those in the calendar that a sum variously stated has been deposited in the bank of the state treasurer.

P. F. 14, to legalize incorporation of villages.

S. F. 65, Ferris, relating to mortgages foreclosures.

S. F. 49, Smith, relating to terms of court in unorganized communities.

S. F. 22, Hodges, relating to land grants, making effective the Andrewland grant tax amendment.

A recess was then taken till 2 o'clock when the Foss inheritance tax was taken up as a special order.

PALACE BURNED.

Cretan Governor Loses His Official Home.

Crete, Feb. 21.—The governor's palace with all the archives, was destroyed by fire today, and as fires broke out elsewhere at the same time it is expected that considerable have been at work. The situation is most grave. Armed and excited Mussulmans are parading the streets, full of indignation at the raid from Selinos, where the Mussulmans besieged the Bengali Arab tribesmen, besieged the whole of Crete.

The rebels are now in a strong box, containing \$7000, fell into the ruins and broke open, whereupon there was a wild rush of Turkish soldiers and robbers to secure the treasure. The foreign ministers were obliged to fire blank cartridges to restrain them and for a time a serious conflict between Turks and Europeans was threatened.

The admirals are about to issue a proclamation in all the towns and villages of Crete, forbidding the presence of the foreign fleets in Crete waters, and exhorting tranquility. This fleet is spreading with the population, which is so divided in inveterate hatred that some of them refuse to be ruled. The plan, it is argued, is to permit the Greek troops to occupy the country, and escort the besieged Mussulmans cannot remain in Crete.

St. Paul, Feb. 21.—(Special to The Dispatch).—The residence of Alexander Frame, a clothing merchant, was burned early this morning. The family escaped during their night robes, and were rescued by neighbors. The home, valued at about \$50,000, was directly under the control of the secretary of war.

BLAZE GIVES BAILE.

Philadelphia, Feb. 21.—Capt. John D. Hart, the owner of the Larada, who was convicted in the United States district court yesterday, at Illinois, and was sentenced to prison for default of \$7000 bail, succeeded in securing his freedom at 2:45 today, and was released from jail. His bondsman qualified in the sum of \$25,000.

THE TREASURY CONDITION.

Washington, Feb. 21.—Today's statement of the condition of the national treasury shows: Available cash, \$151,192; gold reserve, \$147,823,319.

OCEAN STREAMSHIPS.

BRIDGE

Duluth and Superior Structure Caused a Senatorial Combat Today.

Vilas and Nelson Have a Spat Over the Time Extension.

Cuban Subject Bobs Up and Several Resolutions Are Introduced.

Washington, Feb. 21.—(Special to The Herald).—The Duke on Deck.

American Tobacco's President Before the Lexowites.

New York, Feb. 21.—James B. Duke, president of the American Tobacco company was one of the first to appear today in the room of the joint legislative committee on trusts. He brought with him the labor statistics asked for yesterday by Senator Lexow. The papers show that prior to the incorporation of the American Tobacco company in 1890, the several companies gave employment to 59,000 tobacco workers. Today the number of employees in the employ of the company is 91,000, making an increase since the date of consolidation of 32,000 hands.

In calling to order, Chairman Lexow said: "It is in the interest of the coal trust to invest in the coal combination is the most likely that exists and certain newspapers have made specific charges of the existence of this combination or trust."

Mr. Duke then took the stand.

He said that the capital stock of the New Jersey concern, prior to consolidation was \$10,000,000, with which the assets of the various companies was increased to \$30,000,000.

It was subsequently raised to \$70,000,000.

"How much did Allen & Ginter receive?"

"The same as the Duke company, \$7,497,000." The witness said that Kinney & Co. received \$1,999,000 in stock, a guaranteed dividend, \$1,000 in live assets, W. S. Kimball & Co. \$2,499,000 and the Goodwin company \$2,499,000 for common and preferred stock.

"About \$5,000,000 worth of stock?"

WEST END

Board of Public Works Appointment is Awakening Great interest.

A. E. Rosenbusch the Latest Candidate to Come to the Front.

Mothers' Meeting at the Irving--Hugo Plant Begins Night Work.

Mayor Trueblum has given West Duluth every assurance that the member of the board of public works will be selected from this end of town. He may or may not appoint Mr. Jacoby, who has been so persistently urged for the place by his Swedish friends, and he may or may not appoint either W. H. Smith, of Smithville, or Frank Tima, who lives just over the line in the Seven Ward, both of whom have some very strong endorsements.

Since the lights began to burn there has grown so spirit among others to be urged to come out, and E. F. Mitchell and A. E. Rosenbusch have shown aspirations in that direction. Mr. Mitchell has served a term in the council and has had considerable experience in municipal affairs.

Mr. Rosenbusch, who is the very latest candidate to be given a hearing of West Duluth for six years, and most of that time has been quite active in local politics. Some of the leading business men of the city have taken up his cause and will urge his appointment. Mr. Rosenbusch has had considerable experience in public works, having for a long time before he came to Duluth been employed by the board of public works of Chicago. During the administration of President Harrison he held the position of special agent of the United States land office. He is a property holder and taxpayer and is said to be the son of one of the mayors, whose vote in this particular case will decide the contest.

The contest which so far appears to have been free of political influence, has aroused considerable interest in the West End, because this is the first time that a member of the board has been conceded to this end of the city.

HUMANE MEETING. The work of the Humane society is being pushed vigorously in the West End among educational lines. Tonight in Green East hall a meeting will be held under the auspices of the society which has for its object the enlistment of public interest in its work. Address any one of the Board members, Dr. C. C. Satter, Rev. Albert W. Ryerson, Mayor Henry Trueblum, E. C. Grifield and others. The program has also been arranged, and with the meeting the character of an entertainment. Misses Shannon and Palmer and others will participate. The meeting will be presided over by P. H. Martin.

MOTHERS' MEETING. There was good attendance at the mothers' meeting held at the Irving school this afternoon and great interest was manifested in the discussions. The subject of talk was "The Relation of the School to the Home." "How the Parent Can Help the Teacher" and "How the Teacher Can Help the Parent." The meeting was held in West Duluth, and it is expected that the series will do much to awaken interest in educational matters among parents, and to stimulate intelligent co-operation with teachers. Between 1:30 and 3 o'clock the visitors saw the pupils in their everyday school work.

NOTICE TO HERALD READERS. Those having communications, intended for publication, to send them to West End readers of *The Evening Herald*, will please leave them at the office of L. A. Barnes, Room 3, Manufacturers' building, and they will be given prompt attention.

WILL BEGIN NIGHT WORK. The extra shift which will begin night work at the Hugo Iron works tonight, it is expected that from this time on the feet of the steel force main pipe for the new waterworks will be completed daily until the contract is finished.

SURPRISED MR. CONNERY. The friends of Robert H. Connery took the house of Mrs. A. Bagley on Fifteenth avenue west, where he had been staying, last night to give him a last audience of their appreciation of him before his departure for Chicago. A most enjoyable evening was had by all, and regrets were expressed that Mr. Connery would no longer participate in the social gatherings of West Duluth young people. The group, which at the head of the lakes has made Mr. Connery's removal necessary,

WEST DULUTH BRIEFS. The West End incline car has resumed its regular trips.

L. R. Conner is arranging to give up his residence here and move to Malone.

The St. James' Catholic church ladies are preparing a delightful program for the entire congregation on Saturday, March 16, which is St. Patrick's eve.

The Presbyterian Sunday school has decided to give the second of its series of entertainments on the church grounds, Saturday evening, March 12. The entertainment will be held its first meeting at the residence of S. W. Williamson and began the work of arranging the program.

The Hive Lodge, ladies of the MacCabeas, will give a social tea on Saturday evening at the Phillips hotel. The entertainment will consist of music and cards, two pints being offered for the winner in the games. Refreshments will be served.

The Ladies Aid society of the M. E. church of Our Lady gave a very pleasing program last night in honor of Washington's birthday. Those taking part were Miss Goldie Decker, Miss Linda Keene, Miss Jessie Merritt, Clifford Keene, Howard Johnson, and Miss Merritt. The most pleasing part of the program was the music rendered by the string band, or most commonly known as the Stevenson Musical society. Mr. Price also sang two numbers.

A most pleasant surprise party was given at the home of Miss Amye En-

right last evening. A good time was spent in playing games and dancing. Those present were: Nellie Doyle, Josie Lauerman, May Brett, Meadow and George McFarland, James Coffey, Edward Richards, James Brown, Alma Brotherton, Willie Andrews, Julia Doyle, Charlie Lauerman, Beney Kass, Mary Semmens, and Walter Doe.

The Maple Leaf Social Club, of Ontario, was pleasantly entertained yesterday evening at the home of Mr. and Mrs. John J. Duluth. Dancing and card playing were the principal amusements of the young people.

West Duluth Covered Rink.

Waltz concert Friday night. If you don't want to skate you can dance. Admission 10 and 15 cents.

THE PRODUCE MARKET.

Trade on Michigan street, while not oppressive as yet, is getting a little more on itself and the commission men are feeling "pretty well, thank you" over the outlook. Some early kitchen market stuff is in from Lakeside and is nice and good. Fresh strawberries are expected to come down South this week.

Note--QUOTATIONS.

The quotations below are for goods which change hands in lots on the open market. They are given in order to secure best goods for shipping and to cover cost incurred, an ever increasing jobber has been charged. The figures are changed daily.

THE WEATHER.

United States Agricultural Department: Weather conditions for the twenty-four hours ending at 7 a.m. (Central time) yesterday: Moderate winds of moderate intensity has advanced rapidly southward from the region of Montana, and is central in the vicinity of Duluth. Light snows are falling in Eastern Minnesota and the Dakotas. It has fallen, and in the lake region, in the Mississippi valley, at 7 a.m. today, it was 2 below zero in Chicago and 32 at Memphis. The low temperatures reported at that hour were as follows:

City	Temp.	Wind
Chicago	-10	W. N.E.
Albert	-10	N.W.
Minneapolis	-8	W. N.E.
St. Paul	-12	W. N.E.
Williston	-10	W. N.E.
Port Arthur	-11	W. N.E.
Montgomery	-10	W. N.E.
Havre	-22	W. N.E.
Huron	-5	W. N.E.
Twin Cities	-4	W. N.E.
La Crosse	-4	W. N.E.
Lander	-1	W. N.E.
J. R. Rand City	-22	W. N.E.
Dawson	-12	W. N.E.
Detroit	-12	W. N.E.
Dodge City	-28	W. N.E.
North Platte	-28	W. N.E.
St. Louis	-32	W. N.E.
Denotes below zero.		

Lowest temperature last night: Chicago -10°; Prince Albert -10°; Minneapolis -8°; St. Paul -12°; Williston -10°; Port Arthur -11°; Havre -22°; Huron -5°; Twin Cities -4°; La Crosse -4°; Lander -1°; J. R. Rand City -22°; Dawson -12°; Detroit -12°; Dodge City -28°; North Platte -28°; St. Louis -32°.

Denotes below zero.

Local forecast for Duluth and vicinity: For today and tomorrow: cold to 10° with becoming frost by night this afternoon.

JAMES KENNELLY,
Local Forecast Official.

Chicago, Feb. 24.—Forces with S. P. in, minimum 10° yesterday; S. P. minimum yesterday, 1° below zero.

Local forecast for Duluth and vicinity: For today and tomorrow: cold to 10° with becoming frost by night this afternoon.

JAMES KENNELLY,
Local Forecast Official.

A UNIFORM CHARTER.

It is evident, from the conversation at the aldermanic caucus, that the subject of the proposed charter revision, that there are grave doubts whether the attempt to frame a uniform charter for the cities of Duluth, St. Paul and Minneapolis will result successfully.

There are many differences on important points to be removed before uniformity in charter legislation can be accomplished. City Clerk Richardson stated to the caucus yesterday that the Minneapolis contingent at the meeting had agreed to a uniform charter. However, these matters can be attended to later, and at the same time, the saving can be effected by compelling the clerk of the court to do the work with one assistant. Perhaps the new aldermen will look into these matters and apply the pruning knife in accordance with the platform upon which the bill should be indefinitely postponed and I am sure it will be.

It is safe to say that the agitation started by The Herald against the bill, now condemned by the council, will result in its defeat. Ex-Mayor Lewis, who has also taken some interest in lighting the attempt to increase the tax of running the court, wrote to George Laybourn, who has received a reply in which Mr. Laybourn says: "You may have heard that I am opposed to the measure proposed to have so stated to my colleague. The bill should be indefinitely postponed and I am sure it will be."

TAXING IRON MINES.

Representatives seem to be much worried about the taxation of the mining properties in St. Louis county and has introduced another bill which is no better or worse than his other measure to place the taxation of these properties exclusively in the hands of the state board of equalization, thus depriving the people of St. Louis county of their right to make the assessment of taxable property in this country.

Mr. Reeves' latest brilliant scheme is to tax the working mines according to their output at 8 cents per ton and to assess the undeveloped properties in the same way as other real property. The public will prevail with curiosity the reasons which Mr. Reeves may offer in support of this wonderful idea. It would furnish the mine owners with a splendid opportunity for tax dodging. Two corporations now control most of the best properties and are working a few of them. All their properties are now assessed. Under Mr. Reeves' plan they could ship ten tons from each of the properties now shipping none, pay the out-put tax of 8 cents a ton, or 8 cents for

posed of the same elements in like proportions; if they had the same institutions already established; in short, if they always had and would always continue to have the same problems to face at the same time, there would be a grain or two of sense in the plea for "uniformity." Take the simple case of a ward or a precinct. They are now fixed by the charter and are subjected to governing under rules.

In a general charter they would have to be left to determination by the council and the board would be open to change after change, whenever political advantage could be gained. At what figures are the maximum appropriations to be fixed? And if ever fixed satisfactorily to all, what is to be done when one city has outgrown the limit and the others object to any increase? If the delegation should be unable to obtain the required concession it might work serious loss to the city, such as would be entailed by closing the schools for several months year after year until the point was gained."

There is much force in the points raised by the Pioneer Press. The needs of Duluth are undoubtedly vastly different from those of the larger, more developed and differently situated cities of St. Paul and Minneapolis and much difficulty will be experienced in framing a charter that would satisfy both a compromise, entirely satisfactory deal with the diverse conditions. Of course it is possible that the charter committee may overcome the difficulties, but there is no doubt they are as formidable as the St. Paul paper represents. The Pioneer Press is probably too extreme in its closing words, which are as follows:

"At its best a general charter must be a compromise, entirely satisfactory to none and fitted closely to the wants of none, loose in the shoulders and short in the sleeves. To make it work well in all three cities, or in any two, it can only cover general features, leaving important details to the local authorities. Uniformity, in a word, can only be obtained at the expense of strength, and unless every decision of the local courts is subjected to the review of the supreme court, there is no guarantee that the uniformity necessarily obtained at no little sacrifice will be anything but ephemeral; have done with this theoretical chaff for about "uniformity," pass an enabling act under the home rule amendment and let each city work out its own salvation. In the light of its own experience and according to its own needs, unhampered by objections from either the public or the legislature."

Professor Moses Colt Tyler of Cornell said the other evening in a lecture that while Washington's reputation as a soldier and statesman was safe, he was in real danger from the humbug of the future. This was owing to the fact that Washington, the real man, had never been very well known, and is now almost forgotten, having been replaced in the popular mind by a myth type almost equally compounded of the heroic, the priggish and the statuesque.

The Herald cannot agree with the professor when it styles the talk of the Tribune as "the talk of a uniform charter." It prefers to await the result of the deliberations of the joint committee representing the three cities. They may be able to evolve a charter that will meet all the objections advanced by the St. Paul paper and frame a strong and complete charter, satisfactorily dealing with all the municipal problems of the three cities.

THE BILL CONDEMNED.

The city council last night, on motion of Alderman Soren, adopted a resolution in protest against the payment of a salary of \$2000 a year to the special judge of the municipal court as proposed in the bill now before the legislature. It will thus be seen that The Herald's stand in opposition to this measure is endorsed by the chosen representatives of the people, who would be directly affected by the proposed increase in the expenses of the municipal court.

It is a pity that the council did not call it to protest a declaration in favor of fixing the salary of the special judge at \$1200 and also pass a resolution requesting the mayor to cut down the number of judges at the court from three to two, the latter number being ample to conduct the business. However, these matters can be attended to later, and at the same time, the saving can be effected by compelling the clerk of the court to do the work with one assistant. Perhaps the new aldermen will look into these matters and apply the pruning knife in accordance with the platform upon which the people were elected.

Senator-elect Harris of Kansas is not only a classical scholar, but a logician as well. He has six prize papers on his farm, which he has named, according to an esteemed contemporary, Aestrodiles, Basterbin, Callistogonia, Pachnamensis, Pythagoras and Aestrodiles.

So far the proposition to send five members to the state legislature has failed to pass the Missouri house, to pass the Missouri legislature. The chief trouble is that all the members want to go.

Mr. Towne has been deservedly honored by the other leaders of the silver republicans by his selection as chairman of the new national organization.

The morning paper is now posing as an authority on poker. In the controversy with the mayor, it appears to hold a "boothall."

THE RUTZ EPISODE.

Chicago Record: Whether the American citizen, Richard Rutz, was actually murdered or not, there can be no denying that Spain give consent to have him killed in prison, is said by his guards to have been informed. In a talk with a well-informed American, in Cuba, last summer, Dr. Ruiz, the Spanish Consul General Lee requested the American Consul to conduct an investigation, but his request was ignored. If the American citizens respected it must be plainly demonstrated that the Spanish government is ready to protect him. Up to the present time the United States has been too lax in handling such cases, and the reason is, it is felt to believe, Americans often have referred to the law and injured many times. This Spanish government is important to protect its people. The reason of this is, it is felt, within the American people, who are in the service of the Spanish government. The American people, who are in the service of the Spanish government, demand that the Spanish government make an investigation of the Rutz case.

\$5.75

This is the best value of the season.

Paper Patterns--The best, reliable McCall's Paper Patterns for 5c, 10c and 15c. Every one guaranteed.

Silberstein & Bonde Company.

BONSPIEL GAMES.

Playing Was Continued at the Rink Yesterday.

Several games were played at the curling rink yesterday in the homely events. In the second draw of the rink event A. H. Smith and J. A. Todd met and the latter was vanquished, but gave Smith an awful scare. Todd's third round was equally of beginners, the numbers being G. T. Morrison, F. W. Eva, L. H. Paige and J. A. Todd. The score was 12 to 11 in Smith's favor.

R. J. MacLeod and C. W. Culver played in the same draw of the same event last evening and MacLeod won 11 to 4.

Two games were played in the consolation event. In the preliminaries F. W. Eva defeated D. R. Black, 13 to 9, and Donald Morrison defeated A. S. Wilson, 11 to 10.

Scores in the point contest set for final are as follows: H. Sonnenfeld, 23; W. McLaren, 31; L. D. Robertson, 30; A. G. Macaulay, 19; F. A. Currier, 22; Charles McLean, 25.

ITCHING HUMORS Instantly relieved by SCOTT & BOWNE, Chemists, New York.

OPPOSED

The Council Appears to Be Against the Uniform Charter Idea.

It Refused to Appropriately Money to Pay the Committee's Expenses.

Sustained the Mayor's Veto in the Water Trench Matter.

The council last evening sustained the mayor's veto of the resolution providing for the letting of contracts for the work on the force main trench, and put itself on record against the proposed system. It is generally understood that said that a man has to have a pull to get a job after he gets an order for work.

HAS THE POWER.

An opinion from the city attorney was received, holding that the council had the power to appropriate the duties of the board of public works as regard to contracts. The council, it is held, may require the board to appear before the court on the Hugo contract, but that, also, the council itself approve them.

J. A. Blits addressed the council in protest against the payment of bills for fitting up the commissary and company rooms at the station. "The intention of no one is to put us in," he said. "They were never called out to come and that was when there was a state of affairs that were more fitting for us."

The resolution transferring \$1000 from the general fund to the fire department fund was virtually put to the vote by the opinion of the city attorney. It was the opinion that the money could be borrowed for one year if it were not needed for the general fund. As it would probably be needed for the general fund, the council, therefore, incurred any further expense they may have to pay it out of their pockets.

The resolution transferring \$1000 from the general fund to the fire department fund was virtually put to the vote by the opinion of the city attorney. It was the opinion that the money could be borrowed for one year if it were not needed for the general fund.

A resolution, introduced by Alderman Harwood, was passed requesting Congress to permit Morris to formulate a law to establish the post office savings banks.

Resolutions were also passed approving the increase of the salary of the special judge of the municipal court was introduced by Alderman Sang. It sets forth that it is the sense of the municipal court that the special judge's salary at \$200 per annum be curtailed, and protesting against the insurance of the municipal court at \$200 per annum. Alderman Sang said that the expenses of the municipal court now amount to \$1000 per annum.

The resolution, introduced by Alderman Olson, was passed requesting the city to give him a raise.

"This bill is more important," he said, "than the garbage and cemetery bill." Mr. Schmid said he had sent up here and his colleagues have sent it to the other judge from Letting him sit and let him go further." Last year," said Alderman Olson said the resolution was introduced by him.

Alderman Olson said the resolution was introduced by him. "Last year," said Alderman Olson said the resolution was introduced by him.

NOTICE OF THE EXPIRATION OF THE TIME FOR REDEMPTION FROM DELINQUENT ASSESSMENT SALE.

Continued Damage From
Swollen Rivers in the
Eastern States.

At Pittsburg the Floods
Have Subsided Since
Last Night.

But the Situation is Worse
In Kentucky and In
Ohio.

Pittsburg, Feb. 24.—The great flood has done its worst in this section and the waters are now receding. A cold wave, which came up suddenly, broke the banks of the rivers, and the reports from all points between Pittsburgh and the headwaters this morning indicate that all danger has passed. The river in this vicinity reached a higher stage than at any time since 1884. The Monongahela registered 29 feet 6 inches and the Allegheny 30 feet 9 inches about midnight, and the remaining stations, for several hours began to slowly recede. At 10 o'clock this morning the water had fallen one foot, and from now on it will subside almost as rapidly as it rose.

Hardly a point in the Monongahela valley from Pittsburg to Pittsburg has escaped damage by the flood, and many houses in the lower parts were washed away. Mills built supposedly out of harm's way were submerged. Works along the river were closed, and workmen forced to flee from the rising tide. The damage can only be approximated. It is not less than \$1,500,000 in the Monongahela valley, and the headwaters of Youghiogheny also can hardly be estimated. The water had been held on the 7th day of May, 1884, unless the same pieces or parcels of land hereinafter described, sold pursuant to the real estate judgment entered in the circuit court of Jefferson County, St. Louis, on the 8th day of January, 1884, in proceedings to enforce the payment of assessments delinquent upon the date of sale, for the year 1883, for the said city of Duluth, while such water was held on the 7th day of May, 1884, unless the same pieces or parcels of land hereinafter described, sold pursuant to the real estate assignments given shall be redeemed from such sale by the payment of the amount for which the same was sold, and cost of sale, and the amount required to redeem the same, on the 7th day of May, 1887. All of said lands are situated in the city of Duluth, state of Minnesota, county of St. Louis and state of Minnesota.

The following is a description of each piece or parcel of land for which deeds of assignment, or assignments, and the amount set opposite to the description of each piece or parcel of land is the amount required to redeem the same, on the 7th day of May, 1887.

STATE OF MINNESOTA, COUNTY OF ST. LOUIS,

OFFICE OF CITY COMPTROLLER,
CITY OF DULUTH, MINN.
FEB. 23d, 1897.

Notice is hereby given, as required by section 109 of sub-chapter (e) of the laws of Michigan, (2) of the special laws of Michigan for land as aforesaid, that deeds will issue by the city of Duluth, state of Minnesota, at the expiration of the time of redemption, for the holders of the certificates of assignments of sale of the pieces or parcels of land hereinafter described, sold pursuant to the real estate judgment entered in the circuit court of Jefferson County, St. Louis, on the 8th day of January, 1884, in proceedings to enforce the payment of assessments delinquent upon the date of sale, for the year 1883, for the said city of Duluth, while such water was held on the 7th day of May, 1884, unless the same pieces or parcels of land hereinafter described, sold pursuant to the real estate assignments given shall be redeemed from such sale by the payment of the amount for which the same was sold, and cost of sale, and the amount required to redeem the same, on the 7th day of May, 1887. All of said lands are situated in the city of Duluth, state of Minnesota, county of St. Louis and state of Minnesota.

The time of redemption expires on the 7th day of May, 1887.

LONSDALE BUILDING.

CITY BRIEFS.

Cullinan, dentist, Palladio, "Phone No. 9, Spring Evening Star." Mr. A. Fonte, a young Italian, is having a successful lecture. "The Clamp of the Senate," tonight. Children one-half price. The hotel "Climb" closed last evening, so the regular price of \$10.00 will be next prices were carried off by Mrs. A. Stone and Louis Christensen, and the room price by Mrs. A. V. Manganaro and F. C. Johnson.

The Home Culture Club will meet this evening at the home of Rev. H. C. Miller, 1005 Superior Street. "Electricity" is the subject to be discussed. Papers will be read by C. S. Pease, Dr. Wilson, Miss Fronc, H. C. Miller, and Mrs. A. W. Wilson.

The Central Club will meet on Saturday, Feb. 28, at a silver banquet, or a "Prairie" dinner, given by the Ladies' Aid Society. The dinner will be served by the Ladies' Aid Society. The tickets cost \$3.00.

The "Huntington" played guilty before Judge Carlson this morning. The trial was adjourned for ten days.

The following birth announcement reported to the health department: A. J. Jameson and Mattie Griswold, 218 Summit Avenue; a daughter to C. and Anna Roth, of 282 West First street.

Golden Rock Lodge will give its last dance of the season at Old Fellow's Hall Friday evening.

Tonight the Duluth whist players will go to Superior and meet the play girls of that city. The first game in the present series of whist tournaments from Superior was won by Superior and the Duluth men will meet them here to-night to renew their rivalry this evening.

Mariage Licenses have been issued to J. Hager and Anna Peterson, and to Charles Smith and Sarah Olson.

Dr. K. G. O'Neil, 201 West Ninth street, has been examined this afternoon for insanity. He had agreed to epitomize his son's recent acts, it is said, that he has lately acquired the habit of throwing hot irons and cord wood at his children and his wife. He has a family.

Free! Free!
Sample of Armfield's soap at M. Gasser's grocery, Thursday, Friday, and Saturday.

THE WATER POWER.

Cooke Interests May Dispose of Their Holdings.

The St. Louis River Water Power company met yesterday at Phillips' office and it is understood that nothing important was considered. It is quite probable that a transfer of the Cooke interests is in prospect, in fact, it is believed that this is one of the matters which will be decided on during yesterday. No report of what was done has been received.

It has been said that something was in contemplation with a view to the improvement of steam power, and these plans are said to be under maturing far more than has been indicated.

Another Chapter Opened.

Another chapter of subdivision of the Morris litigation was opened this morning by an affidavit of A. L. Astor and T. Alfred T. Morris against E. H. Palmer. The affidavit states that the plaintiff holds three judgments against the defendants amounting to \$16,000, that they are unpaid and that executions have been returned. It is alleged that the plaintiff has certain stock in the Security Law and Bond Company, continuing belonging to Alfred Morris. The affidavit is made for the purpose of removing any doubt concerning the Morris interests in the property, and the plaintiff has some rights in the property.

It has been said that something was in contemplation with a view to the improvement of steam power, and these plans are said to be under maturing far more than has been indicated.

Sues the Rupley Company.

Angus Jamneek this morning began a suit against the Butler Iron Company to recover \$100.00.

His complaint alleges that on May 1, 1896, he was working on a steam trip hammer, and while trying to put under the hammer irons which were being heated or twisted, he claims that a part of the machinery negotiation became loose, having been removed and not replaced.

He left his hand under the hammer, and took away four fingers, for which he wants the above sum, as he claims that the accident has disabled him for the remainder of his life. D. M. DeVore is the attorney.

Masquerade Ball.

Tickets for the masquerade at Thursday night's grand ballroom, March 2, may be obtained of J. J. Gorska, Max Wirth, Fred Kugler, Franz Heinrich, and at the hall. Invitations will not be sent out.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant. 40 Years the Standard.

Alfred Richardson is shortly to commence a campaign for the reduction of the police force. He thinks that about twenty men can be spared. It is said this view is shared by Alderman Sung and some of the other members of the council.

Russell B. Conwell puts DeMotte's wonderful feature, "The Harp of the Sons," at the head of all lectures on the American platform. Hear it to-night.

EIGHT

That Many Indictments Returned Against Ex-County Surveyor Fred Davis.

Each Accuses Him of Presenting False Claims Against the County.

Three Sparta Blind Pig Keepers Got Off Pretty Easily Today.

PERSONALS.

J. D. Holmes is in St. Paul on G. A. Johnson's case.

Mrs. F. L. Hayes, of the Minnesota Soap Company, is in the city today.

William M. Abrahamsen died yesterday in the Twin Cities.

Miss George Rupley is visiting in St. Paul.

Mrs. David Buchanan, who attended the Federated club breakfast at Minn. Club, has returned.

Miss Isabell Fanning of St. Paul, is in the city, the guest of Mrs. E. L. Smith.

Miss W. Stevens, state deputy supreme iota, Knights of the Maccabees, is in the city in the interests of the order.

Madame Beuglet left yesterday for the east.

C. W. Turner, of the Superior Packing company, came from St. Paul this morning.

Frank Grampian of Minneapolis is a late arrival at the Spalding.

A. M. Powell, of Devil's Lake, is a late arrival at the Spalding.

Mr. C. E. Johnson, Chicago insurance man, is a guest at the Superior.

D. R. Davis of Eau Claire, arrived in the city today and registered at the Superior.

John W. Johnson, of Superior, was arrested this morning. He was accused of having sold a quantity of opium to a woman.

W. A. Klinman, of Taylor, is in town, a guest at the St. Louis.

C. J. Pratt, of C. H. Marr, of Grand Rapids, are at the St. Louis.

BAD FOR THE COMPANY.

Street Car Tracks Obstructed By City Employees.

A street railway official said to a Herald representative today that the present winter was the worst that the company had ever experienced. "The cost of cleaning the tracks of snow this winter alone, so far," he said, "has been greater than the total of the same sum for all the previous winters. The company has been in operation, together, but to make matters worse, the tracks have been forced to clean sidewalks in West Duluth and have been torn out of the new West Third street line to day.

The city to extend expense and pay for the express purpose of throwing snow back on the rails after they have been cleaned as though the elements did not give us enough to contend with. If this practice is kept up we will certainly abandon the operation for the winter of the portion of these lines thus obstructed."

It has been said that something was in contemplation with a view to the improvement of steam power, and these plans are said to be under maturing far more than has been indicated.

Does Not Believe It.

IS ON HIS LAND.

A. G. Grochau Claims That of Father Kosmerl's Residence.

A. G. Grochau has begun suit against Francis S. Kosmerl and the Church of St. Anthony of Padua, to recover \$525 damages to his home, which is situated near to Father Kosmerl's residence enclosed on his lot, that the eaves of his house were cut to make room for the eaves of the pastor's house, which had been built when his soil was cut and his fence torn down, that the house cuts off his light, and that the drainage from his roof goes into his basement. All of which he thinks entitles him to the above amount of damages. B. S. Pease is his attorney.

B. S. Pease has begun suit against the Duluth Van, Express and Storage company to recover \$343.75 alleged to be due for rent of a basement apartment in the correct building used by the defendant for storage purposes. Howard T. Abbott is the attorney.

Howard T. Abbott has sued George M. Smith for \$500 alleged to be due for services from March 1, 1896, to Jan. 9, 1897. Howard T. Abbott is the attorney.

The estate of D. E. Marston has sued S. H. Jones for \$600 on a note dated April 24, 1896. Howard T. Abbott is the attorney.

Fred Davis, ex-county surveyor, gave himself into the custody of the sheriff this morning to answer to the court upon indictments which were returned against him. He was arraigned this afternoon, and was given until Monday to plead.

There are eight indictments against Mr. Davis. They charge him with presenting false claims against the county for subdividing sections of land in 1895, for which the law allowed payment at the rate of \$4 a day for each deputy and a day's service of another man. He is charged with paying in claims for more time than the maximum, \$1.00 a day. C. Cole, a deputy, in one case told the sheriff he would work six in the office, making six in all, and in his time at all sixteen days. The charges against the four indictments are similar to this.

The claims which these four indictments cover were presented in 1895. They were presented from, and the court overruled them, in 1896. Davis again presented them, and they were paid.

For the act of again presenting the same claims, the court struck out the indictment.

A peculiar feature of this case will be the fact that Davis will be defended by County Attorney Arbrey in conjunction with Mr. Baldwin, whose case will be prosecuted by Acting County Attorney Baldwin. Mr. Arbrey approved the action which Davis introduced.

William J. Johnson, of the Maccabees hotel, was arraigned this morning on a bench warrant charging him with suffering gambling on his premises. He denied the charge, and was released to stand trial to be held on the 10th instant.

Three saloon keepers from Sparta, this county, were brought down this afternoon on charges of having warrants to answer to indictments which were without paying state license. They were Edward McHale, Henry J. Powell, and Edward Williams. On being arraigned, Justice John Ensign they all pleaded guilty and were each fined 25 cents and costs.

The two agents of W. C. Mulligan, who were arrested and brought from Sparta, were dismissed, as they were implicated in the cases of those who were fined.

William J. Gleant, general superintendent of the Consolidated, is out of the city.

He did not know who he was im-

planted," said he to an Evening Herald reporter today. "But I do not think that such a change will be made now, and another time. There has been no reason for it, and there has not been any reason for me to leave the city. I have never heard of it. The general offices of the railroad company are already located here, and the higher officials and executive offices of the Consolidated mines are in New York, where, in all probability, they will remain.

NATIONAL LEAGUE.
Meeting of the Magnates Going on at Baltimore.

Baltimore, Feb. 25.—The men who control America's national game met here this morning for a three days' conference upon matters connected with that sport. The program to be followed out is about as follows:

First, the meeting of the board of arbitration to consider grievances among the magnates of the leagues. Among the most important of these is that of William H. McGinnis who says the Louisville club went behind their contract to make him manager for a season, thus causing him to lose another desirable job, and that of Fred Fender, the pitcher, who does not want to go to Indianapolis where President Brush of the Cincinnati and Indianapolis clubs, proposed to send him.

The next business is the assembling of the league proper and the presentation of the various committee reports, the most important of which is that of the rules and the writing in which it is likely that most of the suggested amendments will be lost. This report being disposed of the meeting will adjourn until 1 P.M. when the Brooklyn club for the privilege of reducing the general admission charge to 25 cents, one which is likely to cause trouble, will be held. The Cincinnati and Cleveland will want the same privilege and there is much opposition to it because of its tendency to lower the price of all articles.

There are other important questions to be disposed of before the consideration of the rules will be taken up, chief among these being the proposal to increase the membership of the board of control and arbitration by adding two members and to give an equal representation to both sections in that board. This proposition is said in some quarters to be in the nature of an attempt to hold out by the new clubs now in existence for the remaining five for the purpose of avoiding the trouble, which seems to be threatening the league's very existence, and which has been firmly predicted would come up at the meeting in a discussion over the sensible.

It is believed that it will go practically as outlined in these dispatches a few days ago, that is, that the Western clubs coming East after May 1, to which time those of the two sections will play among themselves.

HOCKING VALLEY.
Road Goes Into the Hands of a Receiver.

Columbus, Ohio, Feb. 25.—The Hocking Valley road has gone into the hands of a receiver on the application of the Central Trust company, of New York. The trust company filed its application in the court in Cleveland, and sets up that the railroad company it \$250,000 interest due within the next thirty days.

The purpose is to restrain the company and its debtors which have been oppressive. It has always been the custom of the company to anticipate the heavy interest charges and to plan months ahead to meet them. In the meantime the earnings have been so greatly decreased, owing to stagnation business conditions along the entire line of the road, that a change was made in the existing methods. Heretofore it was the custom to hold off on all payment of interest until the end of the year. The time had come when the company had to pay the interest in full, and paid out the essential expenses against Sangalli to be solvent confinement without opportunity to prepare a defense; no bail except home to be given. The trial date was set for trial within a limited time, as provided by treaty; piling up other charges of kidnapping; irregularities of the several states, rendering necessary and unusual testimony.

Sangalli's chief witness, Saloma, he said, had been shot in the heart, and he could hardly bear in Sangalli's behalf. The trial had shown the extreme hatred existing against the United States, the Spanish officials, and the Americans against the revolution, now attending the convention here, being in attendance.

Mr. Morgan felt speedy action was necessary. He levied the circumstances of Sangalli's arrest and long confinement; the proof of his American citizenship; his freedom from complicity in the revolution; his several statements and welcome circumstances in the case.

While the Cuban debate proceeded rapidly galleries filled rapidly, many of the leaders of the revolution, now attending the convention here, being in attendance.

Mr. Morgan's first step was to check the outbreak, and he rose to his feet, pounded the gavel and, amid the din, gave a ringing warning to the audience that they would be exposed if the demonstration was continued.

At the request of Mr. Morgan the resolution was referred to the committee on foreign relations, the committee being given the right to make a general readjustment of the committee's capital obligation, and perhaps the debts which it had assumed.

This time the treasury department paid all obligations promptly in order not to endanger the credit of the committee, and was taken into account that the interest failing due on March 1 would be paid on the 1st of April, or the 1st of May, as the case might be.

At the request of Mr. Morgan the Alton resolution was referred to the committee on foreign relations, the committee being given the right to make a general readjustment of the committee's capital obligation, and perhaps the debts which it had assumed.

There was intense interest through the senate and in the galleries as Mr. Daniel's words rang out through the house. It was but a moment, however, to a momentary incident. Mr. Daniel said enough diplomatic red tape had been spun on this occasion to build a cable from the United States to Spain and enough ink used for an ocean in which to lay the cable.

Mr. Daniel rose at this point and began a series of questions which he asked the proceedings to fever heat. "Some reference had been made to red tape," said Mr. Hale, "and this whole question has been raised by the diplomatic negotiations between the state department and Spain, and was there not a desire to effect the release of Sangalli?"

Senate Debate Over the
Cuban Resolutions Is
Rather Warm.

Senator Allen Tells Some
Tales of Brutal Span-
ish Cruelty.

The Galleries Cheered When
Senator Frye Indulged in
Warlike Utterances.

House Will Ask Cleveland
For Some Cuban Prison
Information.

Washington, Feb. 25.—The Cuban resolutions were taken up promptly by the senate today. The first resolution coming over from yesterday was that of Mr. Allen, asking the president to take effective measures to protect American citizens in Cuba, and to that end send warships to Cuban ports. Mr. Allen said American citizens were daily being arrested and thrown into prison in Cuba without trial, being denied access to the United States consul. He then detailed some scenes in Cuba.

It was agreed, a story full of barbarism and atrocity. Recently a lady had been snatched under circumstances of extreme cruelty. Little girls had been gathered in Cuba and put into the worst conceivable slavery, sold to a life of shame. Spanish soldiers had taken infants, held them up by their heads, hacked them to pieces with the deadly machetes and killed the parents. Why should congress remain supine? The time would come when this inaction would bring our people home their bones to their beds.

Mr. Morgan said American citizens had pressed forward this protest to American citizens as fast as well authenticated facts would permit.

Mr. Hale inquired whether some time should not be given for examination of Sangalli's report, as the section involved grave international considerations.

Mr. Morgan felt speedy action was necessary. He levied the circumstances of Sangalli's arrest and long confinement; the proof of his American citizenship; his freedom from complicity in the revolution; his several statements and welcome circumstances in the case.

While the Cuban debate proceeded rapidly galleries filled rapidly, many of the leaders of the revolution, now attending the convention here, being in attendance.

WEST END

Humane Meeting Largely Attended and Speeches Were Made.

Preparations For the Ice Carnival Tuesday Are Well Under Way.

John Nevins Dies, the Result of Injuries in the Woods.

The meeting held in the Great Eastern hall last night, under the auspices of the Humane society, was largely attended, the accommodations of the hall being tested to their full capacity. Judge Martin acted as master of ceremonies, and introduced Mayor Truelson as the first speaker. The mayor spoke highly of the good work accomplished by the Humane society, and urged the people to aid it in its efforts for the good of humanity. Col. E. C. Gridley was the next speaker, and he talked on the subject of kindness in the home. Dr. W. W. Merchant, who thought too much formality should not be observed at the home fireside, and that it should be made as pleasant and attractive as possible. Bishop Merchant talked on the progress it had made for the good of mankind. Dr. Albert Ryan referred to the thoughts and neglect of dumb animals that served meat faithfully and uncomplainingly. William and Andrew Gordon talked also on the care of animals. The speaking was interspersed with vocal and instrumental musical selections.

THE ICE CARNIVAL. The ladies of Westminister church have elaborate preparations for the grand Minnesota ice carnival, to be given at the convention under their auspices next Tuesday evening. The arrangements were made under the direction of Mrs. P. Joy, assisted by Mrs. W. W. Merchant and H. W. Lanners. All of those who participated in the recent carnival in the United States are expected to participate, in addition to a large crowd of young people from Duluth and West Duluth. It is proposed that it exceed the previous efforts of a similar character at the head of the list. Many handsome and unique costumes are being made especially for the occasion, and the ladies of Westminister church are taking an active interest in the work, as well as a number outside the church circle.

DEATH OF JOHN NEVINS. John Nevins died at his home, at 615 Fifty-sixth avenue west, at 8:40 o'clock this morning, the result of injuries received Feb. 8. Mr. Nevins had been employed during the winter by the Merrill & King Lumber company. He was engaged in sawing logs, when one of them rolled on him and crushed a bone severely. He was thought to be in a fair way of recovery until last night, when he took a turn for the worse. The arrangements for the funeral are now completed.

Mr. Nevins is a member of the Knights of the Marchioness and the local lodge has taken charge of the remains, which will be sent to Ottawa where his parents reside, tomorrow afternoon.

WEST DULUTH BRIEFS. A service will be held at the home of the West Duluth reading room, which will be given at Mrs. Pak's residence, Friday evening. All are invited and requested to bring personal photographs.

Robert Conroy left last night for Chicago, where he will be engaged as traveling salesman for a furnishing goods house.

Mrs. Nellie Clippert gave a tea party to a number of friends at her home of Fifty-second avenue west Tuesday evening.

Mrs. E. B. Nevin, wife of D. I. B. Kersey, the deceased, in semi-invalid condition, at her home on Fifty-seventh avenue west.

P. F. Smith, former proprietor of the Bennett house, has returned from an extended visit to Bridgeport, Wis.

The last of the series of farewell clinches between Mr. and Mrs. E. P. Follett was given, last night, at the home of Mrs. M. Kastner, 40 Main street. Miss Neumann, of St. Paul, a cousin of Mrs. Kastner, was among the guests.

NOTICE TO HERALD READERS. Persons having communications, announcements or news items of interest to West End readers, The Herald, will please leave them at the office of L. A. Barnes, Room 3, Main Street, for mailing, and they will be given prompt attention.

Macabees, Attention!

All Macabees are requested to meet at L. O. O. F. hall, West Duluth, tomorrow at 2:30, to escort remains of Sir Knight John Nevins to depose. By order of Commander.

W. B. HAIRLEY, R. K.

West Duluth Covered Rink.

Waltz concert Friday night. If you don't want to skate you can dance. Admission 10 and 15 cents.

SUNDY CIVIL BILL.

Senate Committee Makes a Number of Changes.

Washington, Feb. 25.—The senate committee on appropriations has made a number of important changes in the sundy civil bill. Among them it has reduced the amounts for rivers and harbors. One hundred and fifty thousand dollars were cut out of the survey of the d-s water canal to connect the great lakes with the ocean. For a drainage project at Red Springs, \$1,000,000, to continue the survey of the Nicaragua canal, \$1,000,000. It has also inserted an amendment carrying \$1,000,000 to pay additional sugar bounty claims.

BANQUET

The Visiting Legislators Entertained at a Spread at the Spalding.

All Opinions Favorable to Giving a Good Appropriation For the School.

Advice to Take What Can Be Had and Wait For More.

The legislative committee was hand-somely entertained while in Duluth yesterday, and whatever may be the opinions of its members in regard to the normal school appropriation, they are united in praising the city and its institutions.

Yesterday afternoon the party was taken around the city. The normal school site was visited, and the cars then ran out to Maynard hall. On the return the Endion school was visited and later the Jefferson school, Central High School, and First Methodist church. At noon the party dined at Richardson's, Superintendent Denfeld and several aldermen and members of the board of education were in the party that accompanied the legislators. City Clerk Richardson looked over all the details connected with the party, and the manner in which everything was handled, and gave the commendations of all in the party.

After the return to the Spalding the hotel was passed, and until the informal banquets at the Seminole Club 100 were present in this. Superintendent Denfeld was toastmaster, and after the repast was disposed of introduced the speakers.

Mr. Denfeld said that the Duluthians would be glad to listen to the impressions of the visiting legislators.

Major Truman spoke briefly. He thanked the guests for their presence and extended a cordial welcome. He pictured the boundless opportunities in Duluth to measure the boundless extent to which it will grow in the future. He pointed out the industries here, the great buildings and institutions are built on the broad gauge plan, and asked that the time be given what it deserves for a normal school appropriation.

Ex-Governor Yale of Winona, was called on to respond. He spoke of the high cost of living here, always held in his estimation since he left home many years ago. "I find now that I failed to realize its possibilities then," said he. "I am who shall say tonight that our wildest imagination might not fall short of what is to come?" He commended the great energy and enthusiasm of the men who have been engaged in the work of the deposits, which he had first seen ten years ago. The thought occurs to him that why this great wealth should not be developed.

Some day, he said, the man will come who will be ready to take it. The day will come when the St. Louis river water power will be utilized to the full, and the iron ore without the use of cost. He advised Duluth that they will encounter opposition in getting the normal school appropriation. He told how his own city, Winona, had a large amount of sand dollars at the start, but up to today has received many times the original amount, and that the legislature would give the city ought to have for the school. He thought the legislature deserved a generous treatment of the deposits, which he had spoken of the ore deposits, which he had first seen ten years ago.

He advised Duluth that they will encounter opposition in getting the normal school appropriation.

He told how his own city, Winona, had a large amount of sand dollars at the start, but up to today has received many times the original amount, and that the legislature would give the city ought to have for the school. He thought the legislature deserved a generous treatment of the deposits, which he had spoken of the ore deposits, which he had first seen ten years ago.

Representative C. H. McMillan, St. Paul, spoke briefly, expressing the belief that the city deserved much from the legislature.

Chairman Laing of the house committee on education made a speech that was humorous and yet some cold water to the visitors. He cautioned the people not to raise the temperature too high. Even should the normal schools continue and appropriate more money, there would be a large surplus on the floor. He imitated the manner of Mr. Denfeld, got up and shamed out Mr. McMillan, and also Mr. Wagner, and this brought a great laugh. His brother legislators, declaring that he had not done perfectly, he said, he is going to take a hearty laugh to build such a school as you ought to have," said Mr. Laing, "and it is a guarantee you will get any this year. You want no little wait up there on that site."

Senator G. A. Barlow of Mankato, was most enthusiastic. He was impressed with the high and enthusiasm of the people of this city, he said, and predicted a bright future. He said he would be a supporter of any bill in the normal school idea. He wanted to see a building erected here as soon as possible, but the legislature

CAUSE OF SICKNESS.

Most Ills Can Be Traced to the Blood and Nerves.

How to Secure Perfect Health and Vigor.

Dr. Greene's Nervura the Greatest Health Giver Known to Science.

It isn't your liver; it isn't your stomach; it is your blood and nerves. That's the trouble. The spring is the best time to get well. Enrich the blood, purify it, restore it to the old-time vitality; and, at the same time, invigorate your nerves, and your liver comes into play to remove your dyspepsia, your rheumatism, your nervous, weak, tired feeling, and all other troubles. How can it be done? Easily. Use Dr. Greene's Nervura, the incomparable blood and nerve restorative which has cured tens of thousands and will cure you. It is the great remedy of the age. No failure, no half cure, but a thorough restoration. Get this grand remedy at once, today, and begin your progress to health.

Remember that Dr. Greene's Nervura and blood and nerve remedy is a physician's recommendation, and therefore perfect, adapted to cure. Dr. Greene's Cathartic Pill, should be taken with the Nervura for business and consumption. Dr. Greene, 35 West Fourteenth street, New York City, the most successful physician in curing disease can be consulted free, personally or by letter.

must weigh the demands from all sections carefully. He disagreed with Mr. Leeland's view and took the stand that a half hour's time must be given the other schools before he could do this and this will have to also.

A. R. Merritt reminded the legislature that the portion of the school fund will come from the Lake Superior area lands and that this county is the third largest in the state. The school district deserves a generous treatment of the ore deposits, which he had spoken of the ore deposits, which he had first seen ten years ago. The thought occurs to him that why this great wealth should not be developed.

Representative Coe, of Minneapolis, next spoke. He said he would take pleasure in assisting Duluth to get its normal school appropriation, and he complimented the legislature on the legislation.

Representative L. H. Koenner, member of the normal school board spoke last. He referred to the passage of the normal school act last year and said it had been a good act.

He said he had used all his power to aid the school project. This school has earned more than the state can give it. He advised Duluth that they will encounter opposition in getting the normal school appropriation.

He told how his own city, Winona, had a large amount of sand dollars at the start, but up to

today has received many times the original amount, and that the legislature would give the city ought to have for the school. He thought the legislature deserved a generous treatment of the deposits, which he had spoken of the ore deposits, which he had first seen ten years ago.

today has received many times the original amount, and that the legislature would give the city ought to have for the school. He thought the legislature deserved a generous treatment of the deposits, which he had spoken of the ore deposits, which he had first seen ten years ago.

He advised Duluth that they will encounter opposition in getting the normal school appropriation.

He told how his own city, Winona, had a large amount of sand dollars at the start, but up to
